

## 79-Year-Old Giant Kills 3 Fellow Inmates Today At Massachusetts Asylum

Two Other Inmates in Critical Condition After Sudden Attack in Dark Ward Where 80 Aged Men Cringe.

CALLER 'BAD NAMES'

Attacker Says Inmates Maligned Him — Arrested in Lowell, Mass., Today.

Tewksbury, Mass., Feb. 4 (AP).—A 79-year-old muscular giant an amuck with a blazing pistol early today, police charged, and slew three fellow inmates in a state infirmary because they called him "bad names".

Two other inmates lay in a critical condition with bullet wounds in the chest and abdomen, victims of a sudden attack in a darkened ward where 80 elderly men cringed in terror. John Mack, bald-headed and six feet three inches tall, was arrested in Lowell, three miles from the institution, and charged with murder. He confessed, Police Captain James J. Kennedy said, he shot the men as they slept.

The weapon, Kennedy quoted Mack as saying, had been purchased two years ago from a mail order house and kept buried in a tin can on the spacious infirmary grounds.

Mack discarded the weapon, officials asserted, while walking toward Lowell because "it was too heavy." Asked where he was going Mack assertedly replied, "To Alaska."

Dead Inmates

The dead inmates were Michael O'Keefe, 70; Edward Mercer, 70, and James Magee, 78. The wounded were Joseph O'Donnell, 55, and John Lewis, 76.

Captain Stokes said Mack occupied a bed at the end of the dormitory; that he shot Magee first, then moved two beds away and shot O'Donnell. Further down the aisle he shot Lewis and then O'Keefe and Mercer.

The alleged slayer then fled down a fire escape.

At mid-morning, Lowell police, following instructions Mack gave them, found a pistol under a wall two miles from the infirmary.

Admitted in October

Mack was admitted to the institution in October, 1937, but officials said he had been "in and out" of the infirmary several times before that.

Captain James J. Kennedy later said Mack admitted shooting the five men. He did it, the police officials quoted him as saying, because they called him "a bad name."

Captain Kennedy said Mack recently obtained a pistol from a mail order house.

The State infirmary has about 50 buildings in all and approximately 1,500 employees. It is under the jurisdiction of the State Welfare Department although one building houses mental cases.

The shooting capped a dramatic climax to investigation of a mounting toll of violent deaths in Massachusetts mental hospitals. Police discovered last week that violent deaths since 1926 totaled more than 500, including eight slayings of patients by other inmates.

Aides of State Auditor Thomas H. Buckley, who uncovered the killings during a check of hospital records, said weapons ranged from pickaxes to fists.

State police detectives, ordered to investigate all hospitals by Governor Charles F. Hurley, found 424 patients died from other than natural causes between 1926 and 1936, and reported 118 additional "sudden deaths" during 1937.

Five of the slayings occurred at Medford State Hospital and three at Danvers Hospital. Officials of the Mental Diseases Department, which supervises the institutions, pointed out they were overcrowded 15 per cent beyond capacity.

## Bard Dean Gives Hope for College At Annandale

The following communication has been sent to all alumni of Bard College (formerly St. Stephen's) regarding the public announcement relative to closing the institution in June:

BARD COLLEGE  
Annandale-on-Hudson  
New York

February 1, 1938.  
To All Friends of Bard College:  
By now, you all have read or heard of the decision of our Board of Trustees which it was my sudden and incredibly painful duty to read to the college community on Sunday, January 30.

Some of you may have a feeling of how hard a committee of our trustees worked during the past ten months to avoid the necessity of making this announcement. Quite unexpectedly, due to unforeseen circumstances, they failed, within the allotted time, to raise the sum necessary to ensure operation of the college during the year 1938-39.

This action is not as final as it may have sounded to you. Strange as it may seem, this painful situation is proving to be the salvation of Bard. Nothing could have been more moving or more convincing than the way in which the college met this shock. Today we are united, firm in our belief that Bard is a successful "experiment," and prepared to demonstrate our right to live.

At the request of a meeting of the entire college community, called by the student body, I have appointed a committee representative of students, faculty and administration to coordinate the money raising efforts of what is in effect a committee of the whole college.

It is my firm belief that the necessary funds can and will be raised within a few weeks, but it is now up to us. I feel certain that anything we do to supplement the efforts of our trustees to make possible the continuance of Bard on a solid basis will meet with public approval and support. Our fate is in our own hands. If we can under these trying circumstances keep our morale high, we will make an indelible impression upon a world which knows how to appreciate that kind of courage.

These new buildings will be sent to all our friends at frequent intervals to keep them informed as to our progress. Let Bard hear from you now in this time when we need your support.

HAROLD MESTRE,  
Acting Dean.

SEEK PRINCIPALS IN AUTO THEFT RING

Binghamton, N. Y., Feb. 4 (AP).—Police here began a search today for the principals in a statewide automobile theft after the arrest of a man identified by Detective Frank B. Casey as a "runner" for the group.

The suspect, who said he was Kenneth R. McGee, 31, of Beacon, N. Y., waived examination before City Court Judge William S. Richardson here on a charge of criminally receiving stolen property. He was taken to the Broome county jail to await grand jury action.

McGee was arrested at Monticello, N. Y., last week after police recovered 17 stolen automobiles. Police said the ring's activities extended to New York City, Syracuse and Buffalo.

New Rochelle College Head

New Rochelle, N. Y., Feb. 4 (AP).—The new Rev. Francis W. Walsh, V. F., pastor of the Church of the Assumption at Peekskill, has been selected by his Episcopal bishop, Cardinal Hayes, as the next president of the College of New Rochelle. He will take office next week.

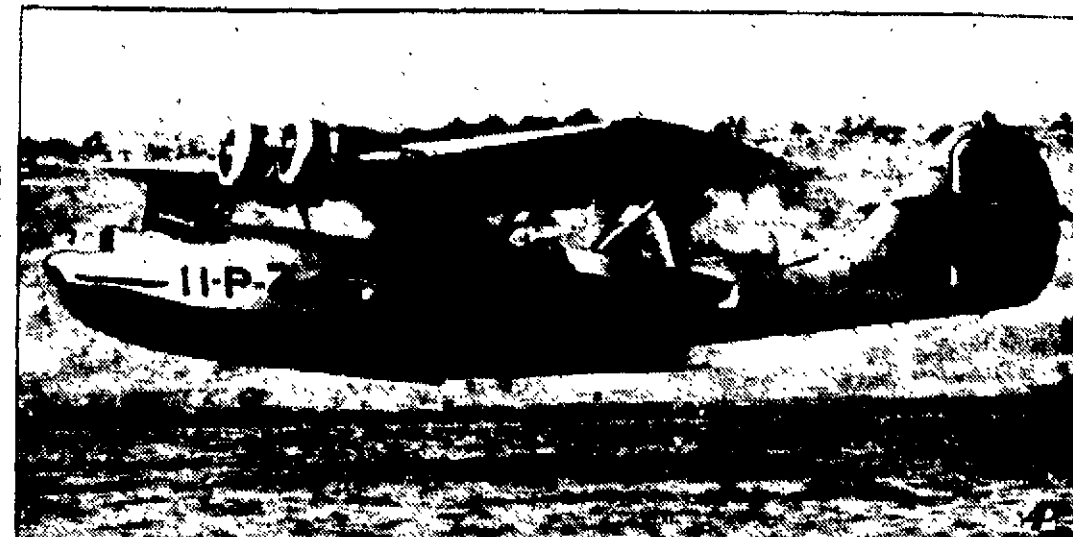

Insurgents Bomb Madrid

Madrid, Feb. 4 (AP).—Spanish insurgents again have turned heavy artillery on government Madrid, after a period of comparative quiet.

More than 200 shells fell into the city yesterday. At least 20 persons were killed and more than 50 injured. The attack on Madrid and aerial bombardment of other cities of government Spain brought death to about 50 on Wednesday and Thursday. One hundred and fifty were injured.

The Associated Press office here was badly damaged by a shell hit on the front part of the building, which has insurgent guns on Ceratilla Hill, two miles away. The hit was high, and only a few shrapnel bits entered the office, shattering pieces of furniture. None of the staff was hurt.

## 11 Die as U. S. Navy Bombers Collide

Eleven of the 14 crew members of the giant U. S. Navy bombing plane, 11-P-4 (above) and its sister ship, the 11-P-3, were lost when the two planes, engaged in fleet maneuvers off San Pedro, Calif., collided in midair during a night flight. The 11-P-3 fell in flames and the 11-P-4 broke to pieces after striking the choppy sea. Four crew members of the 11-P-4 were picked up alive but one succumbed to his injuries.

## Navy Seeks Way to Avoid Future Air Crashes by Planes

San Pedro, Calif., Feb. 4 (AP).—The United States fleet, shocked by the death of 11 fliers in the worst airplane disaster of its history, convened a board of inquiry today to find new safety for the navy's fighting birdmen.

"Out of this regrettable and costly accident, we may arrive at a new safety feature in aircraft maneuvers," said Rear Admiral Charles A. Blakely, commander of the aircraft scouting force.

The inquiry board, he said, will seek information that "will make it impossible for such tragedies to occur again."

Two huge patrol bombers, the 11-P-3 and 11-P-4 of Squadron VP-11 at San Diego, collided in a squall Wednesday night, 70 miles off the coast, and plunged into the sea with 10 of the 14 crewmen.

Four, by an order from their commander, Lieut. Carlton B. Hutchins, parachuted from the 11-P-4 before it fell to destruction.

None of the 11-P-3's seven men had a chance as roaring flames enveloped it immediately after its wing struck that of the 11-P-4.

Of the four picked up by a crash launch from the flagship Pennsylvania, J. H. Hester, radioman, died a few hours later aboard the hospital ship relief while the fleet vainly searched for the missing bodies of his 10 comrades.

The disaster was the second during navy war drill in recent weeks. Just 26 days earlier, a sister bomber disappeared with seven men.

DAMIS UNINJURED WHEN CAR GOES DOWN BANK

The car of John Damis, of Glasco, who runs a shoe repair shop at 333 Broadway was badly smashed when it left the highway at Glencliff as he was driving in to his work this morning. The car went down the bank and turned over two or three times. Damis escaped uninjured.

Treasury Receipts

Washington, Feb. 4 (AP).—The position of the Treasury February 2: Receipts, \$82,938,325.17; expenditures, \$88,996,630.06; balance, \$2,951,694,632.41; customs receipts for the month, \$1,631,515.53. Receipts for the fiscal year (since July 1), \$2,547,233,418.16; expenditures, \$4,430,877,609.02, including \$1,135,532,759.85 of emergency expenditures; \$942,574,411.86; gross debt, \$27,592,776,459.80, an increase of \$105,950.75 above the previous day; gold assets, \$12,755,233,929.43, including \$1,223,049,279.94 of inactive gold.

Billion Relief Fund

Washington, Feb. 4 (AP).—Works Progress Administration officials, it was learned today, have suggested informally to congressional leaders a \$1,100,000,000 relief appropriation for the year starting July 1. Administration lieutenants at the capitol have advised them to ask for only \$1,000,000,000, a reduction of one-third from the \$1,500,000,000 appropriated for the current fiscal year.

## Roosevelt Is Trying To Put Floor Under Wages, He Says Today

President Says He Does Not Contemplate Fixing Prices or Wages

Washington, Feb. 4 (AP).—President Roosevelt said today he was trying to put a floor under wages in the same manner that he was endeavoring to establish a minimum for agricultural prices.

Price fixing or wage fixing, he added, was not contemplated.

The President made the statement to his press conference shortly before representatives of little business men—fresh from a turbulent two-day conference—went to the White House to tell him of their ideas on recovery.

Many of the ideas failed to jibe with those of the administration. The little business men presented a long statement on government-business relations adopted yesterday as the conference closed.

The President's remarks on wages and farm prices were made in response to a question of whether he agreed with Senator Wagner (D., N. Y.) who recently contended, in opposing the prevailing wage amendment to the housing bill, that collective bargaining would be eliminated and the country put on the road to Fascism if the government ever attempted to say how much a carpenter or bricklayer and all other workers should receive.

The President said that that argument was in line with what he had always said. But he warned reporters against misinterpreting that, pointing out that in the pending farm bill he was attempting to put a floor under farm prices rather than to set prices. The same analogy could be applied to wages in industry, he said.

The resolutions the committee from the little business men's conference drafted to present to Mr. Roosevelt urged—to mention a few—a tax relief, long term loans, and equal responsibility for labor unions with employers in carrying out agreements.

Noting published accounts of some of the things that went on at the conference, the President said it was not fair to ridicule either those who attend or their efforts.

Asked if he shared the view of some that the conference was a " flop," the President said he did not know because he had as yet to hear from them.

Turning to other questions asked by the large group of reporters, the President declined to comment on announcement by the Packard Motor Company of a reduction of \$100 in the price of its six cylinder model. He declined, he said, because he did not know whether the new model was the same as last year's.

In response to another inquiry, Mr. Roosevelt said the date had not yet been selected for the discussion he intends to have on railroad problems. He added, however, he expects to make public today the names of those to be invited.

Considerable laughter swept the President's office when a reporter asked whether he planned any further conferences after the smaller business men's meeting. The President replied he did not know, but that the little business men might ask for another one. He said all those attending the meeting in the commerce department in the last two days had written letters requesting to be heard.

Gray-haired Fred Roth of Cleveland, O., chairman of the conference, led the delegation of little business men to the White House.

Besides Roth, members of the committee included William D. Kimball, vice president, Standard Sapp Company, Long Island City, N. Y.

## Three Objections To Awards for Reservoir Cases

Objection was made to one award this morning before Justice Francis Bergan at special term by the city of New York when the city moved for a confirmation of the second report of Esopus Condensation Commission which was appointed to hear claims of property owners whose property borders the Esopus creek from Alhambra to Ashokan reservoir.

Two awards were objected to on the part of Senator Walton who represented several claimants. There was no objection to the other awards and counsel in the case for claimants as well as for the city of New York agreed that the confirmation of those awards should not be held up pending determination of the final awards in the three cases where objection has been made.

Justice Bergan said he would sign an order of confirmation of the report so far as the claims to which no objection was made and those claimants might be paid.

Decision was reserved relative to the three awards to which objection was made.

Henry R. Bright for the city of New York with Vincent J. Connelly of counsel appeared and moved for a confirmation of the report with the exception of the award made in the George Simon claim. This award was for \$45 damages to the property caused by the injection of the Shandaken tunnel waters into the Esopus creek from February, 1921, until the date of the acquiring of an easement in 1936. For the easement or right in perpetuity the commission awarded the sum of \$150 in the Simon matter. The city did not object to the award on the grounds of its size but on the legality of the award. The city objects to the award of \$45 for damages on the grounds that the commissioners, Messrs. Wadlin, Hoppin and Beecher, awarded damages for the period from 1924 to 1936, while the present owner, Simon, has owned the property only since 1931 when he acquired the property at a mortgage foreclosure sale. The city maintained that the present owner could not be compensated for any damage done prior to his acquiring the property but that any claim for damage prior to his acquiring title remained with the prior owner.

Mr. Bright argued that the commission was in error in awarding damages to Simon for the period from 1924 to 1931 when he acquired the land. He told the court that any right to recover damages for that period remained with the prior owner and the prior owner had a right to bring an action to recover for any damage between 1924 and 1931 when title passed to Mr. Simon.

By awarding the damages to Mr. Simon for the entire period Mr. Bright held the commission had followed a wrong theory of law. Any trespass which the city made on the property prior to Mr. Simon acquiring title he held remained as damages for the owner to collect and he denied that the right to recover followed through to the present owner when he took title.

Senator Charles W. Walton who appeared for the claimant denied that there had been any trespass by the city. He said that the city had used the land under authority of an act of the legislature which permitted such use but he said the city had not asked for a commission to fix damages until several years after the use was commenced and so until several property owners brought actions in supreme court for damages. The city had the right under the law to use the

### State Official Asks Stricter Trooper Highway Patrol

Albany, N. Y., Feb. 4 (AP).—Stricter state police supervision of rural highways was urged today by a state motor vehicle official in reporting New York's 1937 highway death toll at 3,065, an increase of 11 per cent over 1936.

More than one-half of the fatal accidents, 1,572, occurred in so-called rural territory, embracing villages and communities of less than 10,000 persons and comprising less than 22 per cent of the total population.

"If we hope to effect any reduction in our rural death rate, State Motor Vehicle Commissioner Charles A. Harnett said, 'we must have more state police specifically assigned to highway enforcement. I believe that white police cars equipped with amber blinkers on the roof so they may be easily discerned at night should be used for patrolling purposes.'

"Added to this, we must consider improvement in our highway lighting or the addition of modern highway lighting where none now exists, together with the construction of sidewalks in thickly populated rural areas."

35,651 Since 1925.

The 1937 death toll brought the total fatalities since 1925 to 35,651.

The 3,065 death and 106,482 injuries last year resulted from 82,085 automobile accidents, an increase of 393 deaths, 5,080 injuries and 3,184 accidents over 1936.

Harnett's report also disclosed: Pedestrian deaths totaled 1,539, approximately 50.2 per cent of the total fatalities.

Collision accidents between automobiles gained 6.2 per cent in number and 148 in fatalities over 1936, and accidents where motor vehicles collided with a fixed object, gained 23 per cent in number and 130 in fatalities.

October brought the largest number of deaths, 338; March the fewest.

Sunday was the "most dangerous" day on which to operate a car, 544 fatal accidents occurring on that day; Wednesday was the safest.

The hour between 7 and 8 p. m. was the "zero" hour with a total of 216 fatal accidents for the year.

Illegal Departures

Albany, N. Y., Feb. 4 (AP).—Illegal departure of motorists from the scene of an accident was blamed by State Motor Vehicle Commissioner Charles A. Harnett today as the chief reason for 1937's increased total of 28,091 license suspensions and 6,656 revocations.

Last year's number of suspensions, the commissioner said, were 16,091 more than in 1936 and the revocations increased 1,269 over the same period.

While 893 motorists were found guilty of leaving the scene of an accident in 1937, a gain of 216, the commissioner said the number convicted of driving while intoxicated increased from 3,249 in 1936 to 3,488 last year.

Licenses of 774 reckless drivers were revoked during 1937 as compared with 511, the preceding year. Similar action was taken against motorists who made false statements in their license applications, an increase of 293 over 1936.

Not Past Crisis

Hollywood, Feb. 4 (AP).—Siemens Simon, French film star, gained slightly today but was not past the crisis of a serious attack of pneumonia. Cedars of Lebanon Hospital reported.

### In NLRB Clash

J. Warren Madden (above), chairman of the National Labor Relations Board, lifted verbally with Sen. Edward R. Burke (D., Neb.), who is demanding a congressional investigation of the board, Madden, shown on the stand, appeared before a senate judiciary committee where the arguments took place.

The official order reads: That the New York Central Railroad Company be and it hereby is directed to install and place in operation not later than June 1, 1938, at each of its existing crossings at grade at Broadway, Smith, Tenbroeck, Foxhall, Gage and Flatbush avenues in the city of Kingston not less than four electric lights equipped with 25 watt electric lamps and red roundels of not less than 5 1/2 inches in diameter, which said lights shall be lighted and remain lighted at all times when the gate arms at each of said grade crossings are in horizontal position and between the horizontal position and 15 degrees above the horizontal the said lights to be located on the gate arms in such manner that one light shall, when the gates are in a horizontal position, be in the center of each traffic lane of the street or highway on each side of the grade crossings above named.

That this order shall take effect immediately.

Hearings Were Held

As a result of Mayor Heiselman's application for additional protection at the grade crossings the Public Service Commission directed that public hearings be held before M. C. Cleveland, chief engineer, in Kingston on November 17 of last year and in Albany on December 29 of last year. These hearings were held and attended by the mayor and Corporation Counsel John M. Cashin who appeared in behalf of the city.

Chief Engineer Cleveland, who presided at the public hearings, later submitted a written report to the state board which led that body to direct the railroad to install the electric lights at all crossings in the city.

The matter was first taken up on May 21 of last year when Mayor Heiselman wrote the state board calling attention to the accident on the Broadway crossing in which one of the city fire trucks was in collision with a passenger train and on October 19 of last year the commission determined that a hearing be held and designated November 17 as the date for the hearing to be held in Kingston.

Mr. Cleveland in his report stated that it appears from the testimony given at the hearings that there was justification for the complaint about the lamps now in use on the crossing gates in the city, there being only one light on each side of the tracks located at or near the center of the streets. These lights are not as brilliant as the lights referred to on the station crossing in Middletown and there is reason to believe that under certain conditions they might be mistaken for a tail light of a vehicle.

There is merit in the contention that the crossing gates should be provided with more effective lights to warn traffic of their locations, and I therefore recommend that electric lights be installed on the gate arms, one on each of the traffic lanes on each side of the Broadway and Smith, Tenbroeck, Foxhall, Gage and Flatbush avenue crossings. The lamps to be equipped with roundels not less than 5 1/2 inches in diameter and lighted with not less than 25 watt electric lamps.

Hearing April 15

The mayor said he was desirous of having all residents of the city who had narrow escapes at the crossings or were delayed by the use of the crossings by railroad traffic appear at the public hearing at that time to give their evidence so that the State Public Commission would receive a clearer picture of the needs of crossing eliminations in the city.

A public hearing will be held on the petition of the city to eliminate all grade crossings in the city on April 15 at the court house.

The bill provides: Federal Housing Administration insurance of mortgages amounting to 90 per cent of the value of homes costing up to \$2,000; 80 per cent insurance on the portion of the cost exceeding \$2,000.

A maximum interest charge of five per cent on all loans.

Elimination of FHA "service" charges and substitution of a premium charge of 1/2 of one per cent on the diminishing balance on \$5,000 loans and from 1/2 to one per cent on larger loans. The latter premium charge will be fixed at the option of the FHA.

A \$2,000,000 limitation on the amount of FHA mortgage insurance that may be in effect at any time. The President is authorized to increase this to \$2,000,000.

Amortization of 99 per cent loans insured before July 1, 1937, on a 25-year basis and 80 per cent loans on a 20-year basis.

## Bayonets Ring Chinese

Shanghai, Feb. 4 (AP).—A ring of Japanese bayonets closed today on a Chinese division cut off from reinforcements and supplies on the frozen, bottom-land battlefield north of Nanking.

Japanese sources, which sent word of the struggle along the Hwai river valley, said the Chinese division was in retreat from Pengpu when swift Japanese detachments isolated it.

The Japanese, they said, were fighting at close range with bayonets and rifle fire to wipe out the entire division.

As Japanese smashed their way north from Nanking toward Suchoo, the Lunghai railway nerve center, Nippon's strategy became apparent.

Military observers said Japanese were alternating their pressure on the northern and southern borders of the approximately 180-mile wide corridor. Chinese had to shift their armies back and forth to meet the alternate threats.

Up the Yangtze river valley from Nanking, two Japanese gunboats shelled Hoshien while Japanese troops landed nearby. Chinese asserted they had scored one victory in Yangtze valley fighting, ambushing and wiping out a Japanese detachment near Wuhu.

Japanese apparently had not yet started widespread bombardment in central China, where Americans and other foreigners were asked to evacuate after marking their properties for safety against air attacks.

In South China, however, Japanese naval planes kept up their attack on railway lines and Chinese military bases, bombarding the Canton railway and military headquarters at Amoy.

Worried Chinese at Canton again sang a boom, blocking river approach to that southern metropolis and bottling up a number of foreign ships, including four British gunboats, between Hongkong and Canton.

### Public Service Commission Orders New Safety Lights Be Placed on Crossings as Requested by Mayor.

#### ELIMINATION

Petition to Eliminate All Local Crossings To Be Heard on April 15.

Mayor C. J. Heiselman's application to the State Public Service Commission for additional protection at the existing grade crossings of the New York Central Railroad in Kingston has been granted by the commission, which has just handed down an order directing the railroad to install at least four electric lights at each of the existing crossings.

The official order reads: That the New York Central Railroad Company be and it hereby is directed to install and place in operation not later than June 1, 1938, at each of its existing crossings at grade at Broadway, Smith, Tenbroeck, Foxhall, Gage and Flatbush avenues in the city of Kingston not less than four electric lights equipped with 25 watt electric lamps and red roundels of not less than 5 1/2 inches in diameter, which said lights shall be lighted and remain lighted at all times when the gate arms at each of said grade crossings are in horizontal position and between the horizontal position and 15 degrees above the horizontal the said lights to be located on the gate arms in such manner that one light shall, when the gates are in a horizontal position, be in the center of each traffic lane of the street or highway on each side of the grade crossings above named.

### WHAT IS HOME WITHOUT A GARDEN?

#### COLD FRAME WILL GIVE EARLY CROP OF FLOWERS

Uncertainty of late spring weather is of little concern to the gardener who has a cold frame; with it he gets a jump on the weatherman, in spite of an occasional light frost, or a cold rainy spell. Seeds started in this miniature greenhouse are protected from everything but severe freezing. The little work and trifling expense of building a cold frame are more than paid for by the satisfaction of an early crop of flowers and vegetables.

How to Make a Cold Frame

The soil which is used in it should be friable top soil, well pulverized. Sow the seed in straight rows, cover lightly, and firm the soil over the seed, pressing smooth with a brick or block of wood.

Watering is important. At no time should the soil be allowed to become hard and dry. Yet excessive watering may cause the seeds to rot, sour the soil, or cause "damping off." When the plants appear, thin them out, allowing each to grow singly without crowding.

After the seedlings appear, watering is still important. Good drainage, between which the soil dries somewhat without becoming crusty and hard, should be the rule. And fresh air is the next great need. On sunny days, the sash should be lifted early in the morning, otherwise the temperature may quickly run to a dangerous height. Inspect the cold frame at least every morning and afternoon, and remember it whenever the weather changes abruptly. You will soon learn the program needed to keep the young plants growing vigorously, which means with good heavy roots and strong stems, stocky rather than tall and spindling.

When transplanting time comes, take up the seedlings with as little disturbance of the roots as possible, and get them back into the ground as soon as you can.

#### Outdoor Preparations

With the first warm days of spring, temptation assails us to rush ahead with outdoor preparations.

Even experienced gardeners should receive these warnings each spring, and confine operations to indoors. First about the soil. Except on very sandy soil, which is well drained, it is dangerous to work ground too early. If it shows footprints when you walk across it; or makes a mud pie when you pat it on your hand, spading or plowing will create hard clods which probably cannot be broken up all season. The heaviest clay soil will work

easily if you wait until it has dried out so when you make a ball of it in your hand and pat it flat between your palms it will crumble. At this point it is neither too dry nor too wet, and if spaded and pulverized then it will be much improved in texture.

Nothing will do more to coarsen clay soil than limestone screenings mixed with it liberally. You cannot use too much. Clay is usually rich in plant food, but the soil particles are very fine and mutually repellent. Scientists say that lime makes the particles attract each other and thus collect in coarse grains, which makes the soil looser, more easily drained and more "friable."

#### EARLY FEEDING OF LAWNS INSURES BEAUTIFUL TURF

##### By The Master Gardener

To have a beautiful lawn, you must feed that lawn—furnish it with all the elements growing grass needs. Many people fail to realize the amount of plant food removed from the soil each year by growing grass. They do not realize the necessity of replacing that plant food. They wonder why their lawn becomes thin, scraggly and weedy—and why seeding alone does not solve the problem.

The most desirable method of feeding is to apply a complete, balanced plant food—odorless, economical, and easy to apply.

Plant food, to be of greatest benefit to grass, should be applied to the established lawn very early in the spring. The most favorable time to apply it is just as soon as spring thawing begins because—

1. The ground is still honeycombed from the effects of freezing and thawing and the plant food readily finds its way to the grass roots.

2. The nourishment is available to the roots, just as soon as root action begins, and when all conditions are favorable for growth—plenty of moisture from spring rains, cool weather—just the condition that grass likes. Remember that root activity starts long before any sign of growth is visible above ground.

3. If water bills are a factor in your garden budget, by all means take advantage of early feeding, for plant food need not be watered in if applied before top growth begins. The early spring rains will take care of this watering-in process for you.

On large areas, the job of application may be simplified by the use of a plant food spreader.

A lawn that is fed early and given an advantageous start when all factors are favorable for the growth of grass, will be able to crowd out weeds and prevent germination of any weed that may have blown or washed on the lawn. Weeds start active growth later than grass, and if the lawn has a headstart, there will be no bare spots to encourage weed growth.

Early feeding will develop sturdy deep roots that are resistant to summer heat and drought, and that will support a green velvety carpet of grass the whole season through.

Magazines, catalogues, newspaper articles and books should be an important part of your gardening education. Do not neglect them.

### HOME BUREAU

#### Woodstock.

Woodstock, Feb. 4.—The first kitchen conference for the Woodstock Home Bureau was held on Wednesday morning at the home of Mrs. Ivan Summers. Miss Knowles, expert from Cornell University, was present to conduct the meeting. Mrs. Epps of Kingston also attended to explain a number of kitchen helps which she has made practical in her own home.

Miss Knowles described kitchen closets designed to place all necessary equipment within easy reach of the housewife. She brought photographs illustrating a number of attractive and useful closets, and showed how narrow hallways, washstands, narrow hallways and other unexpected sources. Miss Knowles also stressed the importance of varied work centers arranged conveniently in the kitchen and equipped with the proper tools for each kitchen task, dish-washing center, laundry center, cooking center, food preparation center, etc.

Mrs. Epps had many practical suggestions for simple, inexpensive ways of making kitchens more attractive and convenient.

The kitchen conference was followed by a covered-dish luncheon enjoyed by the members and their guests, Miss E. Parsons, Mrs. Knowles and Mrs. Epps. The prize dish was supplied by Mrs. Augusta Viehman who brought a delicious cabbage, combined with a flavorful bit of meat. The dish was so delicious, and yet so economical, and easy to prepare, that Miss Parsons requested the recipe, so that it might be included in Home Bureau recipes.

The luncheon was followed by the second pneumonia lesson, given by Miss Ploss, state nurse. This lesson consisted of a lecture and demonstration on the nursing of a patient. She explained the importance of complete physical and mental rest for the pneumonia patient. She gave a very useful and practical demonstration of the method of bathing a patient, making the bed, keeping the room clean, converting colds into pneumonia, and doing everything possible for the comfort of the patient.

Other meetings for this month will be the second discussion "About Ourselves" at the home of Mrs. Besse Cohn on February 7 at 2 o'clock; the third meeting on foods, "The Making and Serving of Coffee," February 16; a living room conference in Mrs. G. C. C. Layman's home on February 23.

#### Accord

Accord, Feb. 3.—The subject of the second lesson on foods and hospitality in the home, was "Light Refreshments" for afternoon and evening parties. The women met at the home of Mrs. H. M. Epps, Tuesday, February 1, and those attending were: Mrs. Ben Davis, Mrs. Millard Davis, Mrs. Albert Myers, Mrs. John Osterhoudt, Mrs. Elmer Hendrickson, Mrs. H. M. Epps, Mrs. Gross Schoonmaker, Mrs. Percy Gazley, Mrs. William Countryman, Mrs. M. Palmer, Mrs. L. J. Haines, Mrs. John Smith, Mrs. Earle Schoonmaker, Mrs. Elmer Smith, Mrs. Marian Sahler, Miss Edna Baker, Mrs. Helen Anderson. After a short discussion on the various types of service and menus for afternoon and evening parties also simple refreshments for children's parties, the leader, Miss Bertha Coons, directed the women in the making of cream puff shells with chicken salad, hot cream chocolate and the arranging of a cheese tray containing an assortment of crackers and different cheese. A short social time followed.

#### Modena

Modena, Feb. 4.—Modena Home Bureau unit conducted a meeting Wednesday at Mrs. Harry Sutton's home in Clintonville. Projects, "Kitchen Cupboard" by Knowles, and "Grooming" by the Misses Marian and Helen Palmer were demonstrated and discussed. Representatives of the Central Hudson Gas and Electric Corp. demonstrated a cooking device during the meeting. Pot luck lunch was enjoyed at noon. Those attending were Miss Everette Parsons, Kingston; Mrs. Harold Epps, Accord; Mrs. Knowles, Kingston; Mrs. Myron Coons, Mrs. Rose Thomas, Mrs. Albert Butler, Plattekill; Mrs. Wygant, Courter; Mrs. Lester Arnold, Mrs. Orville Seymour; Mrs. Myron Shulds, Mrs. Knoxon; Mrs. Lillian Patridge; Miss Marian Palmer, Modena; Miss Emma Palmer, Miss Helen Palmer, Mrs. Ira Hyatt, Mrs. Eugene Patridge, Mrs. George Altheusen, Mrs. Eber Coy, Ardonia; Miss Irene Slicker, Mrs. Marshall Lowrie, Mrs. Walter Bernard, Mrs. Ella Osterander, Mrs. Philip Baker, Mrs. Lillian Eltinge, Mrs. Ralph Van Sicles, Mrs. Winfield Jenkins, Mrs. Andrew Ronk, Mrs. Werner Pasberg, Mrs. Parker Hull, Mrs. Jonah Rhodes, Miss Hilda Rhodes, Mrs. Edna Young, and Hostess Mrs. Sutton, Clintonville. Next meeting of the local unit will be Wednesday, February 9, at Mrs. Frank Black's when Mrs. Wygant Courter will demonstrate various types of coffee making, and Mrs. Frank Black will lead discussion on family life.

#### Today's Good Deed

Byra Mawr, Pa.—Two policemen here died their daily good deed—and put two women in the hospital.

It seems the ladies' car was stalled at the top of a hill and the policemen gave it a friendly push, just a little one.

The automobile careened down the incline, crashed into an electric light pole, snapped two high-tension wires and plunged the neighborhood into darkness. The crashproof cops took the women to a hospital.

Late winter is a good time to collect cigar boxes or make data for planting seeds indoors.

## Church Committee Appointment for The Blossom Fete

Scout Executive William A. Wright, chairman of the committee to arrange the churches' part in the Ulster County Apple Blossom Festival Church Day which will occur on Sunday, May 8, has appointed his sub-committees to plan the various phases of church activity for that day.

The work of the committee members will be to assemble historic data concerning the various churches, to keep the chairman advised as to the arrangements for speakers for the Sunday morning services in the several congregations, to present plans for varied services in the churches, and to see that all publicity material is forwarded to the chairman.

## FLASHES OF LIFE SKETCHED IN BRIEF

By Associated Press Hot Foot

"O" is for Odd  
Bozwell, Ind.—Mr. and Mrs. William Flynn have named their tenth son Oakley.

There's nothing odd about that except that nine of the lad's brothers also have names beginning with "O": Orat, Odie, Othie, Ovie, Orval, Otis, Oscar, Oliver and Omer.

#### Notice

Chicago—Abe Jacobs locked up his fur shop and posted a neat red and blue sign on the door, reading: "This place will be closed the first half of February. Gone on my yearly vacation."

But it was only an invitation to burglars, who battered a hole in the vault and made off with furs Jacobs valued at \$5,633.

But It's Science

#### TALK ABOUT WHEELS WITHIN WHEELS!

By HOWARD W. BLAKESLEE AP Science Editor

New York—The Chinese box of science is the search for the ultimate "seed of life."

There always is a smaller seed inside every seed of life so far traced. One of the smallest has been brought out of its nestling

place by Professor Robert Chambers of New York University.

An expert in micro-chemistry, he dissects things invisible to the unaided eye. His knives are threads of glass with tips drawn too fine to be seen without a microscope.

With one of these glass knives he has pierced the nucleus of a living cell. The nucleus lies in the center of a cell, like the yolk in an egg. The nucleus, says Chambers, has no apparent connection with the surrounding cell "white"—the cytoplasm.

But if the nucleus is punctured, the cytoplasm begins to disintegrate. The cell dies. This death never has failed to follow in a single-nucleus cell.

But some cells have two nuclei, and these furnish

## FOSSIL PROVES SEA MONSTERS EXISTED

Lived 40 Million Years Ago, Discovery Shows.

Berkeley, Calif.—The University of California stands ready to stake its scientific reputation on the existence—if not at present, at least some 40,000,000 to 50,000,000 years ago—of the far-famed sea serpent.

Whether there also existed at that time seaside resorts where the press agent could take advantage of the appearance of a sea serpent to attract the patronage of the public to his beach, the university does not know.

However, the existence of the sea serpent in what is known as the Upper Cretaceous period has been definitely established by the finding in the San Joaquin valley of the splendidly preserved fossil.

The monster, which is some 20 feet long in its fossilized form, is of a particularly rare type, according to Dr. L. C. Camp, curator of the museum of paleontology at the university, who assisted in the excavation.

Known as Plesiosaur.

Up to this time the plesiosaur, as the marine reptile is scientifically known, has been unknown on the Pacific coast, although fossil fragments have been found in other parts of the country.

The present specimen, which is one of the most complete ever found, first was uncovered by Frank Paiva, a laborer, while hunting for gypsum in the only shale 30 miles west of Mendota.

He notified Fresno State college, which in turn notified the University of California and the two joined in the final excavation of the stone-like carcass and which involved something of an engineering feat.

The rounded portion of the body, with three flippers, weighed a ton and had to be dragged from the ravine where it was found on a specially constructed sled attached to a truck by a long rope.

Fourth Flipper Missing.

The skull, tail and neck, the latter 15 feet long, presented almost as great a problem in removal. The fourth flipper was missing.

Examination of the serpent determined the fact that it was a relatively short-lived species which inhabited the ocean some 40,000,000 or more years ago.

## HE'S UP, HE'S DOWN, HE'S OUT AT BUSINESS PARLEY

For the second consecutive day, A. S. Shafer (arrow) was tossed out of the small business operators' conference at Washington, D. C. It seems he became voluble. Shafer, from Philadelphia, was forcibly ejected by angry delegates when he refused to stop talking. The hectic conference succeeded in passing, between breaches of parliamentary law, some resolutions sponsors said would cure the recession.

## SAUGERTIES NEWS

### Harold Legg Loses Left Arm

Saugerties, Feb. 4.—Harold Legg, an employee of the Martin Canine Co., on Thursday morning became entangled in some of the belting on the machine he was operating and before it could be stopped had been whirled around and his left arm was mangled and crushed.

Dr. George Pace was called and after giving first aid had the injured man removed to the hospital in Kingston by Dargan's ambulance. Dr. Joseph Jacobson assisted by Dr. Pace amputated the arm at the elbow. Legg is a married man and the father of six children.

Dog Census Large

Saugerties, Feb. 4.—The canine population in the township of Saugerties shows that there are 1,858, including pups and full grown dogs.

The enumerators' reports for districts are: Malden, 115 male, 32 female, 28 puppies; Floyd Sweet, Saugerties, 393 male, 98 female, 36 puppies; Salvatore Mayone for Glasco, 140 male, 15 females and 29 puppies; Charles Shader for High Woods, 116 males, 22 females, four puppies.

### SAUGERTIES SCHOOLS WON'T ENTER BEAUTY CONTEST

Saugerties, Feb. 4.—The Saugerties public schools will not take part in the Apple Blossom Festival queen contest in May. The local Parent-Teacher Association will be represented by Mrs. Randolph H. Winston, who will serve on the contest committee for Saugerties. The Apple Blossom Queen symbolizing the fairest maiden in the county, is to be picked as a highlight of the festival on either Friday night May 6, or Saturday Morning, May 7.

Hook and Ladder Company Ball

Saugerties, Feb. 4.—The Washington Hook and Ladder Co. ball will be held in the Phoenix Hotel ball room on Friday evening, February 11, with music being furnished by Hi Henry and his Aristocrats for dancing. The members of the fire fighting company are making every effort to make their 55th annual ball a social and financial success and have mailed to the Saugerties people tickets, soliciting support for this affair.

## EMPIRE FOR A LADY

SYNOPSIS: Carrying a gun-ship for Rajah Mantus, we find Sumanant, a young girl, who is the daughter of a Rajah, and who is being held captive by the British. She is being held captive by the British, and she is being held captive by the British.

Chapter 16  
Tanyalang  
"I ADMIT that the tribes themselves cannot be organized or controlled," Christine continued. "But those few hundred riflemen are more than enough. All the rest of the tribes merely add weight and mass; they protect the snipers and serve as clean-up troops. Do you think 300 sharpshooters can't open Balingong to the tribes? I tell you they could take Saramba!"

It smacked me between the eyes like a bullet.

she described could have been done in secret. The Malays knew nothing about the religious capers of the Dyaks, and care less. Forerster could carry a few guns, ostensibly for hunting, without causing attention. The Dyaks, too, old in the codes of tabu, are good at secrecy.

There was not a really basic flaw in her whole story; indeed, much that was circumstantial seemed to support it. Yet I still could not bring myself to put any importance in it. It was too elaborate, and, by her account, too thoroughly successful. I still was not ready to acknowledge what long, patient labors might be possible to a scholarly and visionary man concentrating on a single purpose.

I started some ill-natured objection. "But how..."

Then suddenly I saw a thing that stopped me. It hit me between the eyes with the smacking shock of a spent bullet, so that what I was saying was knocked out of me in mid-word.

The Sacred Symbol  
I WAS looking at her hands; she had beautiful hands, slender and sensitive, but browned by the sun, and very strong and capable. She had dropped the metallic bangle that she had been playing with. It was dangling from her wrist by its thong. And I saw now that the thing was a Dyak jimat, or charm token, cut out of thin gold in an intricate fret-work. It represented the formalized figure of a bird; and instantly I knew where I had last seen one exactly like it.

The gold hornbill cut-out was the same as the brass jimat which had hung from the rifle Mantus had captured; so closely the same that one must surely have been traced from the other.

"In heaven's name, what's that?" She slipped the thong off her wrist, and gave me the token to look at. "It's what I've been trying to tell you about. That's a Tanyalang; it represents the sacred symbol of the life societies. Every gun has one of these—only not gold—and so has every rifleman. The societies themselves are called Tanyalang; it's both a symbol and a name."

Curious how a little piece of cut-

## BABSON ON BUSINESS

"NEW DEALS" THAT PAY

Babson Says Third of National Income Wasted

Babson Park, Fla., Feb. 4.—America's annual waste amounts to about \$25,000,000,000. Of this total, billions could be saved each year and turned into channels which could boost our standard of living proportionally. The general health, comfort, and happiness of the people would be improved greatly by a corresponding slash in taxes. This annual saving of waste would cause no total unemployment although there would be temporary readjustments in certain industries. The money saved from waste could be used in making more useful goods and rendering more useful services.

When I think of these possible savings, our total debt—public and private—of \$200,000,000,000 does not seem quite so impossible to pay off. If we as a nation really buckled our belts a little tighter, we could pay up this entire debt out of savings from waste in a few years and eliminate the annual interest bill of nearly \$10,000,000,000. This great step forward would be made possible by a system of collecting penalties for waste and of using the funds to encourage the building of new homes, the manufacture of useful clothing, and the distribution of healthful foods.

Different Forms of Waste  
Among the forms of present \$25,000,000,000 waste, the following types and their dollar losses are especially bad:

Excessive eating, drinking and smoking, \$5,000,000,000.  
Foolish investments and preventable business failures, \$2,000,000,000.

Unnecessary contagious diseases, \$1,800,000,000.  
Preventable fire and other losses, \$1,600,000,000.

Ignorant buying of adulterants, \$1,400,000,000.  
Expenditures on insane and criminals (which could be eliminated by sterilization), \$1,200,000,000.

Appropriations for misdirected education, \$1,200,000,000.  
Distribution wastes (today it costs more to sell goods than to make goods), \$1,000,000,000.

Wasted gasoline and oil, \$800,000,000.  
Cosmetics and quackery, \$500,000,000.

Miscellaneous, \$1,000,000,000.  
The first thought is that the elimination of this waste would throw many people out of work, but these workers would be re-employed building new houses and making useful goods. There would be a shift of employment to worthwhile occupations rather than an increase of the jobless. Debt and taxes would be reduced, thus cutting retail prices and in turn giving everyone more goods than he now receives. No "dividing-up" of our national wealth need be necessary if we would only save the millions we are wasting today and shelter them into food, clothing, and shelter for those who are not getting their full share.

Individual efforts are not much help in solving most national problems unless a large group of people join in. But even without a group movement here is a case where every reader who cuts out one wasteful habit, like the use of liquor, and spends the same money on a useful product, such as good furniture, benefits himself and the entire nation. Take our waste of gasoline and oil. The 31,300,000 automobiles now being used in the United States and Canada consume about 20,150,000,000 gallons of gasoline valued at \$3,330,000,000 yearly. Of this amount, probably 10 per cent, or about \$750,000,000 is wasted. When you add to this the oil lost through leaky pipes, incontinent pumps, and other causes, the total is well over \$800,000,000.

But the money which you need-

NEW YORK—The old New York that historians write about in largely disappeared beneath a layer of asphalt and concrete, yet you can still find the old familiar landmarks if you care to look for them. The other day I went over to 55th Street and First Avenue where the Dove Tavern used to stand and where a young Yale graduate named Nathan Hale as a spy. John Hyde Preston describes Nathan Hale as a tall, slender young man with golden hair and blue eyes. He had posed as a school teacher and went gadding about the Taverns where the British officers spent their evenings drinking grog and flirting with the pretty barmaids. But Hale's luck ran out on him, and he had to die.

AN officer barked a command. While a grave was being dug and a scaffold hastily erected a vast crowd of curious sightseers began crowding around. Presently a soldier came up, saluted, and announced that everything was ready. Nathan Hale, who was 23 years old, got back into the wagon and was driven under the gibbet. A noose was dropped over his head and a white silk handkerchief covered his eyes.

"Have you anything to say?" inquired the officer in charge. "Nothing," replied Hale. "I am sorry that I have only one life to give for my country."

As near as I can make out, the Dove Tavern stood where the Church of St. John the Evangelist, a grey stone structure with leaping spires, now stands. Directly across the street, on 55th, is a modern apartment house and next to it is a sign which says "William C. Waters, Funeral Home."

On the opposite corner, on First Avenue, is a small restaurant known as the Vital Bar and Grill, and across from it stands the Edison Dry Cleaners, a brick store with an ugly yellow facade.

FIRST Avenue at this point is a bumpy thoroughfare, paved with brick. The whole stretch from 55th to 56th is dull red brick, and is in line with (1) Billy's restaurant, (2) Gehrke's antique shop, (3) the Flower Market, and an assortment of plumbers' shops.

There, too, a great mail box and a wire-wicker basket from the "Dept. of Sanitation," and not far away is a second-run cinema, where out-dated movies are shown.

But I found nothing that marked the street as a historic site. Not even in the mind of the big Cop directing traffic there.

"What about Nathan Hale?" I asked. He looked up, studied a moment, and shook his head. "I never heard of him."

Willy Nilly Replies

"YOU have not hurt my feelings in the least," said Willy Nilly in a tone which the zebras knew he meant. "Nor have you hurt the feelings of my duck or dog or rooster."

"That's so," cackled Top Notch from where he was standing, and then in a lower tone of rooster voice he whispered to Mrs. Q.

"Isn't it wonderful how Willy Nilly gets at the heart of things? He knew what was the matter with the zebras."

"You see," Willy Nilly went on, "we are so very used to each other (and each of us is so very different) that we do not feel shy, but because we don't feel it is no reason for not understanding that you do."

"In the summer I know you travel in the show and that you are visited by many people, but if you are shy and do not care to be bothered by us we feel you should have your winter's holiday as you wish it to be."

"If we had come from wild, wild mountains we might be the same way. So you must know that we understand."

"We are grateful," said the zebras. "Come and call on us once in a while so we will know that you haven't annoyed us. But if we properly."

Clean and re-set spark plugs. Examine fan belt and charging rate. Test battery and ignition wires. I know of no case where a car owner, having these tests made, could not save money. Just two final thoughts:

Your engine performs better on less gasoline. Only the starting qualities can be affected if your mixture is much too thin. Some day our gasoline supply will give out unless low-cost hydro-generation processes are developed. Every time your carburetor is adjusted you are doing a real service for future generations.

Test Your Car—Save Money  
Until recently it was very difficult to discover or measure this fuel waste. This is no longer true. Machines now exist for accurately measuring the gasoline which you are not burning. A tube can be put into the exhaust pipe of your car and a dial will register the guilty figure. These machines are so delicate that the smoking of a cigarette will show on the dial. Bad spark plugs, leaky oil pumps can be detected. The gasoline tester has taken the guess out of the diagnosing of automobile troubles.

Readers know that paper checks are as good as money. Here are eight automobile checks which are better than either:

Adjust carburetor with a gas analyzer. Stop leaks in fuel pump and feed system. Set timers properly. Check vacuum with a mercury column. See if condenser is working properly.

## That Body of Yours

By James M. Barton, M.D.

(Registered in accordance with the Copyright Act)

## THE METABOLISM TEST

When the heart beat is persistently rapid the first thought (if the heart itself be sound) is usually that the thyroid gland in the neck is manufacturing too much juice. As this juice speeds up the body processes, the heart rate is, of course, "speeded up." This is considered one of the serious forms of goitre.

To make sure that the thyroid gland is at fault and that a goitre, even if small, is present, the basal metabolism test is made. The patient is warned not to eat any food after his evening meal of the night before the test, and goes to the physician's office or to the hospital before breakfast the next morning. He lies down quietly with body and mind as much at ease as possible, breathes in oxygen and breathes out the "used" air (containing carbon dioxide) into a tube carrying it to the soda lime chamber where the amount of carbon dioxide can be measured later.

If too much oxygen is being used, or too much carbon dioxide is being manufactured by the body processes while at rest, that is the body processes are working at a rate of more than 15 per cent above what is considered normal, goitre is considered to be present.

This seems simple enough, but physicians know that if the patient is excited, perhaps afraid of the test because it may mean an operation, they cannot breathe slowly or naturally, and the heart is faster because of this fear or worry. In addition, as the patient has not had any breakfast, he misses the "settling" or quieting effect of the food which would draw some blood down to the stomach from the "excited" brain.

It is for the above and other reasons which may excite the patient that the first test shows more than 15 per cent further metabolism tests are made.

It is only natural that with so much at stake—operation, anaesthesia, stay in hospital, expense—patients are upset or excited at the first test. By a few days' rest, reassurance by their physician, and by the physician or nurse making the test, the true reading or measurement can be made.

It should be remembered then that the basal metabolism rate must be persistently high when taken under favorable conditions (quietness of mind and body) before your physician and surgeon would consider operation or X-ray treatment necessary.

## VISITOR SEEN NEED OF IMPROVEMENT TO VIADUCT

New York City, Feb. 3, 1938. To the Editor of the Kingston Daily Freeman:

Not so long ago while on a visit to the city of Kingston, I was greatly impressed by the need of improvement in regard to the narrow old viaduct in the upper part of the city, on Washington avenue. It seems to me it is located at a vital point, where one leaves the city and practically goes into the mountains. No doubt when it was built it was sufficient for the horse and buggy traffic but today hundreds of cars and trucks pass over it and at a terrible speed. The narrow foot path along its side is also a hazard to life and limb. I inquired if many accidents took place there and to my surprise

was told that they do not. I must certainly be Divine Providence that guides folks over it safely.

May I, as a resident of Kingston, but a visitor, suggest that now when you have the PWA, etc., to call on, why not improve that highway. Surely your residents are entitled to safety. That viaduct could be widened and beautified. This would add to the appearance of the upper section of your city and protect its residents' lives.

Please publish this letter. I hope some one will take this matter up with the proper authorities and insist upon something being done. I trust your paper will be interested in my suggestion.

JAMES W. GARVEY.

## HOLLYWOOD SIGHTS AND SOUNDS

## By ROBBIN COONS

HOLLYWOOD—Second-guessing on the James Cagney-Warner Bros. peace treaty effected the other day gives us a pretty piece of backstage drama.

On the surface, it would appear the boys merely got together

and ironed out their troubles, with smiling sweetness all around. Cagney, after making two films for the "Independent" Grand National company, goes back to the studio where he became a star in hard-hitting melodramas. His suit to free himself from a \$4,000 a week contract was victorious nearly two years ago. The state supreme court, when both contending parties agreed, reversed that decision.

The result takes a load off many minds. Cagney won originally, not on his contention that he was overworked, but on a slip of the studio in billing him under Pat O'Brien at one of the Warners' theaters, which was a breach of contract.

## Conclusions Made

Had the case gone through to a supreme court test on its merits, many studio contracts with stars would have been endangered in the event of a Cagney victory. Had Cagney lost, on the other hand, he would have been compelled to give up pictures or return to Warners under his old contract. Acute discomfort, in either event, would have resulted, either for Cagney or for Warners and the other major studios. The outlook was sufficiently serious, apparently, to induce

the Warners to make concessions, at the same time inducing the actor to change his mind. Cagney's mind, freely spoken during and after his studio fight, was against further relations with those Warners in any circumstances.

Insiders credit Bill Cagney, his brother's manager, and Harry Warner, the studio president, with prime responsibility for the peace pow-wow. Bill persuaded fiery Jimmy to talk terms, and Harry smoothed over the ruffled spirits of brother Jack Warner, and the turkey-talk ensued. The whole affair was straightened out in a three-hour conference.

## Two-A-Year Now

This way both the studio and the star are winners. Cagney, feuding with Warners, could never have worked for a major studio, as major studios have a silent, unofficial agreement about employing each other's rebels. A star of Cagney's importance needs a "major" release—and Warner Bros. needs a star like Cagney. Several potential "Cagney substitutes" did not pan out.

## At The Theatres

## Broadway: "Daughter of Shanghai"

Smugglers of human cargo have a desperate time of it in the main attraction at the midtown theatre and a Chinese man and woman struggle to quell the dirty business and are in constant danger of death throughout the picture's run. This Paramount offering is a wild and tensely melodramatic tale of evil men in the illicit traffic of human slaves and Anna May Wong, Charles Bickford, Buster Crabbe and Philip Ahn are featured.

Kingston: "Bulldog Drummond's Revenge" and "There Goes the Groom." The gentleman sleuth known as Bulldog Drummond strikes at his enemies with fury and success in the best of the Kingston double feature and John Barrymore, Louise Campbell and John Howard are seen in the main roles. "There Goes

the Groom" is a light romantic comedy number with Burgess Meredith and Ann Sothern. Orpheum: "It Happened in Hollywood" A story of the motion picture capital and a singing and shooting tale of the west combine to make the double features at the downtown theatre with Richard Dix and Fay Wray co-starring in the Hollywood story and with the lyric Dick Ford featured in the western melodrama.

Tomorrow Broadway: "Mannequin." After a series of films that didn't quite click at the box office, Joan Crawford makes a strong comeback as the star in this story of a working girl whose ambitions carry

her to fame and fortune. The play is partly a fashion parade and partly an insight into the seamy side of life and the acting of co-star Spencer Tracy is excellent as always in the role of a wealthy man who falls in love with Miss Crawford. This M-G-M production packs a dramatic wallop and the settings are elaborate and costly. Others in the cast include Ralph Morgan and Alan Curtis.

Kingston: "Charlie Chan at Monte Carlo" and "Born to the West." Super-sleuth Charlie Chan roars to the gaming halls of Monte Carlo for his latest adventure in crime checking and the first double feature at the Kingston is a thriller of the first magnitude. It has excitement, comedy and mystery and Warner Oland plays the title role and is supported by Royce Luke, Harold Huber, Bob Kent and Virginia Field. "Born

to the West" is a melodramatic tale of the border country and braver, blazing guns, hard riding and romance are combined to make the show entertaining film fare. The cast features John Wayne, Marsha Hunt and Johnny Mack Brown.

## CAT FRIDAY FEB 4

In case you have forgotten it, the name of this month, February, is taken from a Latin word meaning to purify. It was originally the month of purification. And there is as much need for that now as there ever was.

Mrs. Blue—How do you control your husband while you are away?

Mrs. Black—I leave the baby with him.

Optimists are, even now, dreaming about the fine vegetables to be grown in their garden this spring.

Boy—Say, Dad, how soon will I be old enough to do just as I please?

Dad—I don't know, son; nobody has ever lived that long yet.

Thoughts The things that come to the man who waits are usually not worth waiting for.

The less a man knows the more he wants to tell it. Some people pray for more things than they work for. There is one good way to forget the faults of others—remember your own.

Some people who think themselves a wit are only half right.

Wife—I wish I had talent; I'm just itching to write.

Husband—Well, why don't you sit down and try scratching a little?

It's a smart suitor, in February, who recognizes, in his fair companion, a June bride.

Policeman—Excuse me, sir, but if you're the pale faced gentleman who looks like a lop-eared rabbit, I was to tell you that your wife has gone home on the 5:30 bus.

There is an off season for nearly all flowers except blooming idiots.

Professor—What do you know of the Latin syntax?

Freshman—Did they have to pay for their fun, too?

Young Wife (affectionately)—I shall miss you while you are on your hunting trip, dear, and I shall pray that the hunters you are going with will do the same.

Wittenberg Club Dances to Resume

Woodstock, Feb. 4.—The Saturday evening square dances held by the Wittenberg Sportsmen's Club are being resumed this week-end after the discontinuing of the weekly entertainment during December and January. During that time the club house has been attractively celled and decorated with numerous hunting trophies brought in by members. These include a large buck taken this season by Nelson Shultis and a barred owl, mounted in flight.

It is not necessary to be a member of the club to attend these dances, nor is it necessary to be an expert dancer, since instruction in the intricate figures is given to inexperienced guests.

Favorite costumes are ski pants and "Woodstock dresses."

Dancing for square and round dancing is being provided by Forrest Dutcher of Allaben and his orchestra.

Other activities of the club, in their season, include trapshoots, clambakes, the constant attention to the sports facilities of the vicinity, and active interest in Woodstock Winter Sports.

METACAHONTS

Metacahonts, Feb. 4.—Mrs. Archie Deputay called on Mrs. Phoebe Krom Tuesday.

## SOCIAL ACTIVITIES

CLUBS PERSONALS

M. Joseph Block  
Addresses D. A. R.

M. Joseph Block spoke most interestingly last evening to the members of the D. A. R. Chapter, on his trip last summer to Mexico via the new Pan-American highway. Mr. Block reviewed the highlights of the tour and described conditions in the country.

Mr. Block has spoken to several organizations in the city on his trip and his talk has been received with enthusiasm at each place. He spoke of the foreign atmosphere offered to the American tourist, of the sharp contrast in living conditions between the classes of people in the country, and how the government is making a sincere effort to educate the people and to better their living conditions.

Mr. Block had a large Mexican basket of curios he had procured in Mexico, and these were inspected with great interest.

Following the address, a short program of music was given, arranged by Miss Catherine McGinnis. Donald Hicks, whose mother is a member of the D. A. R. Chapter, played two piano selections, "Romance," by Sibelius, and "Elegy," by Nolet. A Russian folk song was given as an encore. Mrs. Clarence Wolfenstein also sang "Let All My Life Be Music," by Charles Gilbert Sprague, and "The Holiday," by Pearl Curran. Mrs. Walter T. Tremper accompanied her at the piano.

At the business meeting an invitation was read from Pierre Van Cortlandt Chapter of Peekskill to attend a meeting Thursday evening, February 17, at 8:15 o'clock at the Peekskill Military Academy. The speaker will be Major A. P. Simmonds, U. S. A., retired, who will discuss, "This Country of Ours." At 10:45 there will be an organ recital given by Mrs. Ethel Prince Thompson.

Guest day will be observed on February 22 by the D. A. R. Chapter with an appropriate program of readings and musical numbers by the pupils of Miss Ethel Mauterlock.

Following the meeting refreshments were served by the hostesses, Mrs. G. Newton Wood and Mrs. Maurice S. Safford.

## J. Y. A. Special Program

The next program of the Jewish Youth Alliance Theatre Guild will be the presentation of five acts of vaudeville at the Jewish Youth Alliance meeting to be held Sunday evening. The program has been arranged by Meyer Levine, chairman of the dramatics and entertainment group. Rabbi Marateck of Abayath Israel Synagogue, and Rabbi Teicher, of Agudas Achaim, will be the guest speakers for the evening. Rabbi Marateck will illustrate his talk on "Hebrew Melodies" with a selection of songs, accompanied by Mrs. Marateck. Rabbi Teicher will speak on "The Jewish Theatre" and will describe some of the current Jewish plays on the legitimate stage. Miss Evelyn Diamond, an officer of the Poughkeepsie Junior Hadassah Group, will be present to explain and outline the work of the organization for those young women interested in organizing a Kingston chapter. A social hour will follow the business meeting with bridge, pinocle and dancing for entertainment.

## Pape-O'Reilly

Mrs. Patrick O'Reilly, of 51 West O'Reilly street, announces the marriage of her daughter, Marjorie J., to Emil T. Pape, Jr., of Long Island City. They were united in marriage by the Rev. Father Hanigan of Our Lady of Mt. Carmel Church, Long Island City, on January 31. They were attended by the bride's sister and brother-in-law, Mr. and Mrs. L. C. Rabble, also of Long Island City. Mr. Pape is a graduate of Columbia University, '34.

## Card Club Gives Shower

Members of the Thursday Card Club entertained at a shower last evening at the home of Mrs. Adeline Schultz on Roosevelt Avenue in honor of Miss Virginia Swartz. R. N., of Saugerties, who makes her home with Dr. and Mrs. Rodney Ball of that village. Miss Swartz will be married on February 11 to Dewey Borden of Liberty. The ceremony will be performed in New York City by the Rev. Ernest Palen. On Wednesday evening Mrs. Ball entertained in honor of the bride-elect.

## Birthday Party

Norma Manos, of 25 Adams street, celebrated her ninth birthday with many of her young friends at her home on Tuesday afternoon. The children were ushered into the dining room, where the table was decorated with pink and blue. Delightful refreshments were served after which games were enjoyed. Norma was the recipient of many beautiful and useful gifts. The little guests departed wishing Norma many happy returns of the day. The guests were Marie Nekos, Peter Nekos, Chris Laros, Steve Nekos, Esther Adia, Louis McCutcheon, Gertrude Rickter, Robert Gray, Dickie Van Brimmer, Grace Elliot, Joan Hotelling, Irene Jannakis, Robert Bone, Margaret Cooney, Almer Goldneck, Marie Crantz, Mary Jannakis, Agnes Jannakis.

## Theatre Group to Present Austen Play in March

Efforts to establish a new center for dramatic and related cultural activities in Ulster county advanced another step today as the Ulster County Theatre Association announced plans for its second production in March, which will bring "Pride and Prejudice" to a local stage from its recent success on Broadway.

The exact date of the presentation has not been set, but the group has scheduled it tentatively for the week of March 22 and is now engaged in preparatory work.

It has announced that it will again use the Kingston High School auditorium for its performance, pending conclusion of negotiations which are now underway for a permanent playhouse in the city.

"Pride and Prejudice," a romantic comedy adapted by Helen Jerome from the book of Jane Austen, was selected as the vehicle for the group's second stage venture because of its exceptional popular appeal and because of the fact that it has not yet been made into a moving picture. Its setting is in England in the early 19th century and its plot and numerous sub-plots revolve hilariously around a comedy of manners.

Casting for the production will begin tomorrow night at 7:30 o'clock at the home of Miss Anne Herzog, at 171 Wall street, where selection of local talent for approximately 29 roles will be under the direction of Miss Herzog and Howard Koch. This work will be continued at the same place Sunday afternoon at 4 o'clock and Monday evening at 8 o'clock.

Rehearsals will begin immediately after the cast is completed. At the same time costume work will begin, with members of the association designing and sewing costumes for all of the female members of the cast.

Along with its preparations for its second production, the association is rehearsing a cast for another presentation of its initial play, "Give Us This Day," by Mr. Koch, to be given on March 25 in Saugerties High School as the first step in a plan to develop a circuit repertory program for the county.

The cast appearing in Saugerties will be nearly the same as that which inaugurated the association's program on a highly encouraging scale last December in the Kingston High School auditorium. The only changes will be substitution of Miss Herzog for Miss Shirley Silverman, and Miss Leadley Silverman, and Carl Limbacher for Jansen Fowler.

Further stimulus for the group is expected to come from an invitation performance for Governor and Mrs. Herbert H. Lehman at the Executive Mansion in Albany. Details of this trip have not yet been arranged.

The theater association has not yet completed the negotiations which are expected to result in permanent quarters. Its present plan is to occupy its building in time for presentation of a special play in connection with Ulster county's first apple blossom festival in May.

## Honored Guest

The Rev. William J. McVey, who recently accepted a call to become pastor of the First Presbyterian Church, will be the honored guest at the Men's Club meeting this evening in the church. An attractive program has been arranged and all of the men of the congregation have been invited to attend the meeting.

A total of 7,092 arrests in the seven-county area patrolled by Troop B of the state police during 1937 has been reported by Captain Charles J. Broadfield, commanding officer. Broadfield said the figure represented an increase of 1,241 over 1936. Troop B patrols the counties of Jefferson, Franklin, St. Lawrence, Lewis, Clinton, Essex and part of Hamilton.

Lights of New York  
By L. L. STEVENSON

Prowling along Forty-second street, stopped in that museum which features 12 acts for a dime. There was magic and double talk along with some other features but a stalwart gentleman billed as Cannonball Richards, to my mind, was the star. The Cannonball offers a reward of \$500 in cash to any one who can knock him down with one punch in the well, abdomen. Was told that Jack Dempsey, a couple of months ago, took a sock at the Cannonball and though he tapped him right in the specified spot failed to connect. And the Minnesota Mauler can still deliver a punch that wouldn't do most men any good. Then Variety reports that a strapping colored man, who coveted that \$500 because he wanted to get married and buy a home, took in five shows and as many whacks at the Cannonball—and is still single. So, while tempted, I left without trying to deliver a haymaker.

For years and years, the flea circus has flourished on Forty-second street and is still doing business, as I learned while listening to the barkers deliver his ballyhoo. Professor Heckler, the founder, died about a year ago. He is well remembered not only for his fleas but for his mouthful of gold teeth. In fact, I can recall only one auricular display that came anywhere near to equalling that of the genial professor. It was in the mouth of a taxi driver over in New Brunswick, N. J., who made hay at the time when the slaying of the minister and the choir singer was big news. The son of the original Professor Heckler carries on the business at the old stand in the same old way. His troupe consists of 50 fleas. He is a bit more progressive than his father, however, as in addition to showing fleas, he is heard on the air on occasions. But—again I resort to Variety—he feeds his troupe twice a day in the old-fashioned way—from the arm.

Movie houses known as grinds are a feature of Forty-second street. Shows start early in the day and run right through until midnight or after. The usual admission price is a dime and many customers come in early and stay late. After seeing the films two or three times, sleep provides an interlude. Hence occasional snorers arise in the darkness. Many a movie that received heavy advertising and drew crowds on Broadway when it first appeared, ends in a grind house under another title—and at a much lower admission price.

Burlesque, accused often as the primary cause of the deterioration of Forty-second street, exists no longer, in name at least. Last May, after Patrick Cardinal Hayes and many others had made complaints of indecency, Paul Moss, commissioner of licenses, refused to renew the licenses of the city's 14 burlesque houses. After a period of sackcloth and ashes—and closed houses—some were permitted to reopen provided they did not use the name burlesque or Minsky, eliminated the strip tease and cleaned up generally. It was tough going because the morons who formed the bulk of the trade couldn't understand burlesque under any other name. So the Minskys, after losing \$25,000, quit and their Forty-second street theater is now another grind movie.

Just as I turned off Forty-second street onto Broadway, ran into Milton Berger. Happened to mention the flea circus to him and he said that the site it occupies was once the well-known Murray's Roman Gardens, which was notable in its day because of the revolving dance floor which had been designed by Stanford White. The floor turned slowly and dancers danced in limited circles until they were back again in their places. The place was the favorite rendezvous of cafe society of that era. Asked if he was sure of his facts, Berger replied, "Sure, I'm sure. My father used to manage Murray's."

## "Ice" Struck in Well

Bueyeros, N. M.—Two Pueblo (Colo.) men struck "ice" here when they brought in a well that will produce an estimated 25,000,000 to 40,000,000 cubic feet of carbon dioxide gas a day.

## Long Missing Purse

## Is Found Minus Cash

Red Wing, Minn.—A purse, missing for thirteen years, has been found here.

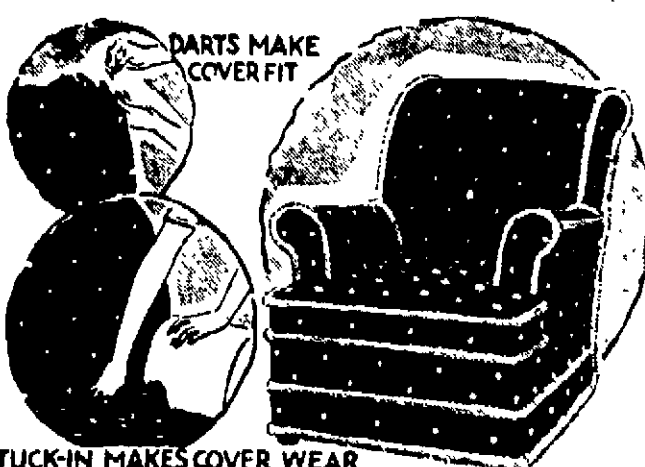

More than a decade ago Mrs. C. S. Sutter attended a banquet at the local Y. M. C. A. Her handbag disappeared. It contained valuable receipts, a book of railroad mileage tickets and other items.

The purse was found at the base of the Y. M. C. A. ventilator when workmen tore it apart for repairs. Inside were all the papers. Missing, though, was some money contained in a leather billfold.

## Fronching Service

There will be preaching service at the Ulster Park Reformed Church, Sunday morning, February 6, at 9:45 a. m., by the new pastor, the Rev. George Berens. The combined installation service will be held in the Port Ewen church Friday evening, February 18, at 7:30. A good attendance at both is desired.

TAKE THESE TIPS ON SLIP COVERS  
MAKE A STUNNING COVER YOURSELF

TUCK-IN MAKES COVER WEAR

Perhaps you're from Missouri about home-made slip covers. You'd love to make a new cover for your worn chair—but could you really make a trim-looking one yourself?

You could! In less than a day you can stitch up a lovely cover like the cedar green one in the picture. You can trim it smartly, too. How about a beige moss fringe to match the beige dots? The fit? By following these simple tips you make your cover fit like a glove.

Smooth your material over the upholstery, wrong side up if you use the moss fringe. Begin at the top and work toward the front of the seat, pinning the material to the upholstery every 3 inches.

To relieve strain, allow a four-inch tuck-in between seat and back as the diagram shows. Leave a two-inch tuck-in between the seat and each arm.

Do you notice bunchy places where back and arms are round-

ed? Make tiny folds or darts in the material like those in the picture—and your cover will shape up beautifully.

Now you're ready to cut, baste and stitch. Trim neatly, 1 1/2 inches outside the pins to allow for seams. Pin in moss trimming, from the right side, baste on the wrong side and try on. Is it just right? Only a final stitching lies between you and a stunning new chair, which has cost you really very little.

In our 40-page booklet, MAKING SLIP COVERS SUCCESSFULLY, are diagrams and instructions easy to follow for all types of chairs and sofas. Tips on materials, color schemes, smart year-round styles.

Used Car Markets  
Are Now Showing  
Signs of Real Life

With trading greatly increased over the preceding day, the volume being 1,090,000 shares, stocks opened on Thursday and showed progressive losses as the day continued, 234 issues setting new lows for this year. Industrial stocks closed the day off 4.57 points, to 113.49 on the Dow Jones averages; rails declined 0.83, to 27.08; utilities lost 0.91, to 18.25. Corporate bonds were lower, governments irregular. London market was easier, Paris and Amsterdam weak.

With general price mark-downs, promotional efforts and advertising campaigns, one of the "deadest" used car markets in the experience of the industry is beginning to show signs of life. Particularly are sales showing improvement in the east and mid-west.

Reaching the lowest level since 1918, arrangements were made yesterday for sale of a Stock Exchange seat at \$59,000, a drop of \$6,000 from the last previous transaction. Last year prices ranged from \$61,000 to \$131,000.

Pittsburgh reports that England, Italy and Japan continue to take all steel scrap offered, paying high prices. Prices are reported to be holding unchanged, the B. & O. recently selling a lot for export at \$16.50 a ton.

Engineering construction awards this week were largely ahead of a year ago, the figures being \$79,608,000 as against \$11,151,000 last year.

Report of Standard Brands, Inc. and subsidiaries for 1937 shows net income for the year of \$9,465,358, which compares with \$11,171,591 in 1936. Net income showed a sharp drop in the last quarter of the year. A dividend of 15 cents was declared, vs. 20 cents previously paid.

American Steel Foundries declared a dividend of 25 cents vs. four payments of 50 cents each last year.

New York Telephone had a station gain in January of 3,256, which compared with 12,699 in January, 1937.

Chulman Prince, of Armour & Co., says meat prices are getting down to reasonable levels, reported January business a little better than December.

Sears-Roebuck report sales of \$29,634,776 for four weeks ended January 29, off 3.1 per cent from year ago. Noisner Bros. January sales were off 4.5 per cent; M. H. Fishman off 4.2 per cent.

Shoe retailers are reported as buying from hand to mouth; factory operations are at a little better level than last two weeks of 1937.

American Steel Foundries shows net of \$3,617,761 in 1937.

New York, Feb. 4. (U.P.)—Stocks convalesced slowly in today's market after an early relapse into new low ground for more than two years.

Initial losses running to a point or so were later converted in advances of as much, but volume was exceptionally small on the reversal of direction. Transfers were at the rate of about 850,000 shares. There was an assortment of minor losers near the final hour.

American Telephone, which hit new low ground at the start with a slide of more than 3 points, recovered a major portion of the setback.

On the recovery side were U. S. Steel, Crucible, Youngstown, Westinghouse, Boeing, Sperry, General Motors, Chrysler, U. S. Rubber, Sears Roebuck, Montgomery Ward, International Harvester, Anaconda, Kennecott, Texas Corp., Santa Fe, N. Y. Central, Southern Pacific, Great Northern, Baltimore & Ohio, Canada Dry, Eastman Kodak, U. S. Gypsum, Union Carbide, Crude Oil, and Philip Morris. Several of these eventually slipped.

Bonds were quiet and uneven. Major commodities did better, with grain and cotton futures in demand.

Utility shares were inclined to mark time, along with most rubbers and oils.

## Social Hygiene Authorities

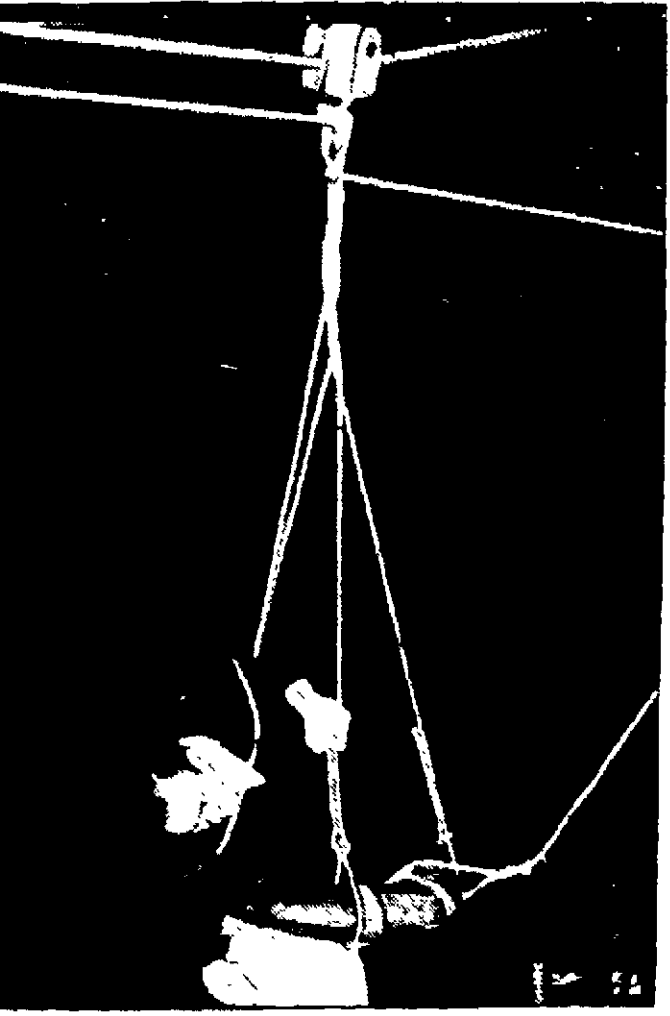

Dr. W. A. Brumfield, Jr., of the state health department, was the principal speaker at the regional conference of social hygiene held Wednesday evening at the Y. M. C. A. Those in the group reading left to right, seated, are Dr. Frank Laidlaw, district health director, and Judge Joseph M. Fowler, who presided; those standing, left to right, are Dr. E. F. Galvin, president of the Ulster County Medical Society; Robert L. Sisson, secretary of the local Y. M. C. A.; Alderman-at-large John J. Schwenk, and Dr. Brumfield.

## CONNECTICUT RIVER ROMANCE

John J. Lorensch, 22-year-old Farmington, Conn., farmer, and his fiancée, Miss Henrietta Pieper, 20-year-old practical nurse, both fond of boating and swimming, they met in the summer of 1936, when the river separating their homes ran low and they had to get out in the middle of the stream to enjoy their favorite recreation.

## RESCUE FROM RAGING RIVER

A coastguard breeches buoy was brought into play to save Edward Giblin, 50, from a rock in the ice-swept Merrimack river, below Pawtucket Falls, Lowell, Mass., after he had been marooned for eight hours. Giblin, almost dead from exposure, was given a chance to recover.

Rev. Mr. Roberts  
Preaches Sunday

The Rev. Edward H. Roberts of Princeton Seminary will preach on Sunday morning in the Rondout Presbyterian Church. Dr. Roberts has preached several times in the church, and undoubtedly there will be a large attendance to hear him again.

Next Thursday evening it is planned to hold the first of the winter series of church family suppers and study hours in the chapel of the church. Supper will be served at 6 o'clock, and followed by the study period. This series of church family suppers that were inaugurated some years ago have been held every winter with great success. Thursday afternoon the ladies of the church will meet in the chapel for a sewing bee and will remain for the supper and study period in the evening.

Testimony Taken  
Thursday in Will  
Contest Hearing

Testimony of several witnesses was taken Thursday in the Mary Jane Kelder will contest action being tried before Surrogate Kauffman and a jury.

Immediately prior to the afternoon adjournment the evidence in behalf of the proponents was concluded and the contestants took up their side of the case. The action is brought in an attempt to break the will, or prevent the probate of the will, on the grounds that at the time of the making of the will Miss Kelder was not competent to make a will and was under restraint or the influence of others.

Among those who testified was N. LeVan Haver who drew the will for Miss Kelder several months prior to her death in 1937. Mr. Haver was given a power of attorney by Miss Kelder on July 1, 1937. Under the will, which was read in court Thursday, he was bequeathed all of the Kelder solid silverware. With the exception of \$1,000 which was given to the Fair Street Reform Church and \$500 which was given to the Rev. F. B. Seeley, Miss Kelder's pastor, and the silverware, all of the estate was given to immediate members of the family of close relatives under the will drawn in May 1937. Under a codicil signed the last of June, certain jewelry was given to friends as well as relatives.

Contestants' Witness  
The first witness called by contestants, after the usual motions to direct a verdict had been made by the contestants, was Henry Krempel, secretary-treasurer of the C. O. Sahler Sanitarium of this city, where Miss Kelder was for some 10 days just prior to the making of her will. He said he had not observed her there but he knew the Rev. Dr. Seeley made arrangements for her coming after her brother died. She remained there some 10 days, "not exactly as a patient," and then returned home. Mr. Haver was sent the bill for her stay.

While on the stand N. LeVan Haver was asked by counsel for the contestants whether he was a collector of old and rare silver. Mr. Haver replied "I am most certainly not."

Oscar Lawatsch Called  
Oscar Lawatsch, teller at the State of New York National Bank,

was called. He had taken the acknowledgment of Miss Kelder as a notary public when she signed a power of attorney. On the paper appeared two signatures. Asked to why there were two signatures, Mr. Lawatsch said he had been requested to go to the Kelder home to witness the signature and when he got there he found the paper had already been signed. He then asked Miss Kelder to again sign in his presence and she did so.

Mrs. Stiles on Stand  
Testimony of Mrs. Frank L. Stiles, who lives in the Kelder property at 111 Green street was read in court, she being unable to attend. Her testimony was taken in the presence of counsel in the case and dealt with her observations of Miss Kelder during the time they resided on the premises. Her testimony was to the effect that Miss Kelder displayed great temper and some of her acts were done in fits of temper caused by her jealous disposition. These acts Mrs. Stiles said were not to her evidence of an irrational person but those of a person who knew what they were doing but were done in a fit of temper.

Annoyance of Visitors.  
Among the things she said she had observed when deceased was in a fit of temper was her custom of annoying visitors who came to the house to visit other members of the family than Mary Jane. She said she would go about the room making noises, pulling the shades off and on and rattling newspapers and doing other annoying things. She said Miss Kelder also made strange noises and one time she had observed her throw herself upon the floor and pretend she was ill to frighten her sisters when they were about to go out in the evening to attend a motion picture show and she was not to accompany them. These acts she said were not those of an irrational person but those of a person in a temper or jealous.

Describes Scene.  
According to the testimony of Mrs. Stiles she once observed Miss Kelder throw herself on the rug and kick her heels in the air and scream. Such acts she said were apparently done to frighten other members of the family and were done when Miss Kelder's family were going to do something which she was not going to do. The acts signified jealousy, according to the witness.

John Kelder, a brother, was not mentioned in the will and is one of the contestants to the will. Washington Kelder is the other contestant. The action will be continued.

Group Attends  
DeMolay Rites

Fourteen Kingstonians attended the public installation of Queen City Chapter, Order of DeMolay, Masonic Temple, at Poughkeepsie, Thursday evening, when the newly elected officers were installed by members of the Poughkeepsie DeMolay Alumni and in the presence of the district deputy of the Hudson Valley, George Chase, Jr., was installing officer and Robert Auchmoody, master of ceremony.

After the installation brief addresses were made and dancing followed.

Those attending from Rip Van Winkle Triangle of Kingston were: Queen, Elsie Buchanan; senior lady in waiting, Catherine Dressel; junior lady in waiting, June Kellerman; guardian, Virginia Hoffman; chaplain, Natalie Winters; Grace Kellerman, past queen, Edna Beatty, and past lady-in-waiting, Eva White. From Colonial City Chapter, Order of DeMolay, was Fred Buchanan. Dad Arthur Keator and Junior Deputy Mrs. Mary Smith and supervisor, Mrs. George Dressel, accompanied the Kingston delegates.

## Many Seek Job on Fire Department

The Municipal Civil Service Commission is planning to hold a written examination for the position of paid fireman on Tuesday evening, February 15, at 7:30 o'clock at the Kingston High School. Saturday is the last day when applications to take the examination can be filed and up to noon today it was stated that 38 applications had been received. Following the examination an eligible list will be prepared of the names of those passing the examination. This list will be good for a period of two years, as the board last year decided that all eligible lists would be established for two year periods only.

## Police School's First Session

The opening session of the police school of the Kingston police department opened this afternoon at the city hall when Lieutenant Charles Phinney had charge. The school, which has been arranged by Chief of Police J. Allan Wood, will meet weekly with Lieutenant Phinney and Lieutenant James V. Simpson as instructors and will continue for a period of at least six weeks.

Cordis Hose Card Party  
On Thursday, February 10, there will be a card party held at Cordis Hose engine house on Delaware avenue beginning at 8 o'clock. The public is invited.

## About The Folks

Mrs. Charles Walker of Pine street and Mrs. Melissa Jacobs and son, Donald, of North Front street, attended the funeral on Wednesday of Mrs. Melissa Potter in Poughkeepsie. Mrs. Potter died on January 30, aged 85 years. She was a sister of the late Sylvester T. Van Derzee of this city, and is survived by two daughters, Mrs. Charles Scott of Springfield, Mass., and Mrs. Clarence Anderson of Poughkeepsie, and a son, Curtis Potter, of Poughkeepsie.

## FIND DYNAMITE IS BEST CROW REMEDY

Urge Federal Action Against  
Destructive Bird.

New York.—No one has yet come forward with any evidence in defense of the crow, says Fred Jordan, director of national wildlife restoration work.

"Dynamiting crows is being carried on in many states where there are winter roosts," Jordan reports, "and the bureau of biological survey is being urged to put crow control on a national basis.

"Crows are migratory, and it is urged that states where they gang up in winter roosts should not have to bear all the expense of removing crows which would be preying on wildlife in other states during the spring and summer.

"In Oklahoma about 500,000 crows are killed each year by state men using dynamite, Illinois was a pioneer state in wholesale crow killing, starting off with miniature cannon trained on the roosts at night.

"Crows are the chief enemy of wildfowl, causing heavy losses of eggs and young on the breeding grounds. They also destroy many other game and insectivorous birds and small mammals. They raid crops at times and are carriers of hog cholera and other epidemics among domestic animals.

"The most effective method of control is applied at the roosts where tin bombs charged with dynamite and bird shot are strung in the branches of trees where crows assemble, then touched off after the birds have settled down for the night. As many as 20,000 have been killed at one blast. Only trained experts should attempt crow dynamiting."

"The average size of women's shoes twenty years ago was a 4," Griffin said. "Today it is an 8."

Women's feet will continue to grow larger for several years, Griffin believes, now that shoes actually fit and permit proper pedal development.

"Most important of all, women today don't worry about their feet being large," he said. "They are willing to be fitted, instead of demanding sizes too small."

He explained the increasing size of women's feet as due to a gradual change from too-small, cramping, styled-for-style and not for comfort shoes to narrower, longer and made-to-fit shoes.

"It allows normal foot growth," Griffin explained. "Women say, too, that corns and bunions are much less frequent. More women are working and on their feet today than twenty or thirty years ago, and continual standing on feet or use of them tends to make them spread."

Various affidavits were produced, one by the daughter Doris, in which she told of her mother meeting Russell and going about in the family car to meet him when her husband was at work. In answer Mr. Ewig said the affidavit from the daughter was because of a difference between her and her mother. He told the court the girl had stated her intention to marry in September against the wishes of her mother and because of this objection she the daughter was hostile and made the affidavit. She remained with her father in Maybrook as she might meet the young man to whom her mother objected.

This was denied by Mr. Houghtaling who said the girl was not to marry in September but was taking a business course and wanted to get a job as stenographer.

Time was given for replying affidavits.

EXCELSIOR HOSE PLANS  
CARD PARTY THURSDAY

The Ladies' Auxiliary of Excelsior Hose Company is planning to hold a public card party in the engine house on Hurley avenue on Thursday evening at 8:30 o'clock. The committee is arranging for an enjoyable evening for those who attend.

Divorce Action  
Testimony in the divorce action brought by Edith B. May of this city against Albert R. May was taken this morning before Justice Francis Bergan at a regular term of supreme court. The matter was on the January calendar for trial and on order of Justice Schrick was sent to the special term for trial. Floyd W. Powell appeared for the plaintiff and Harry W. Williams for the defendant.

Plan Loans Zip  
Washington, Feb. 4 (AP)—Administrator Nathan Strauss' campaign to put actual cash into the hands of local housing authorities by March lost some of its zip today. Officials discovered that a number of cities counted on to lead off the housing authority program, including New York, Philadelphia and Chicago, had over-estimated their preparations.

The average elevation of Africa above sea level is 2,900 feet.

## Separation Case Gets Attention in In Supreme Court

Elbet A. Cosman of Maybrook, Orange county, seeks a separation from her husband, Stanley P. Cosman on the grounds of cruel and inhuman treatment and in support of her claim alleges that he once threw a coffee percolator filled with hot water at her but missed. However a second article, a can of coffee, struck her in the stomach. She also alleges that in an argument over minor family affairs he once threw her to the floor and gave her a black eye, making it necessary to be treated twice by a physician.

On another occasion, Jules Ewig, her attorney, told the court that Mr. Cosman threw an iron at her which went through the house and out through the wall.

The family troubles of the Cosman family were aired in court before Justice Francis Bergan on a motion for counsel fee and alimony made at special term.

Married in 1915 there are two children, one of whom has remained with the father in Maybrook and a smaller child who is with the mother in Walden. Eight years ago the couple were separated for a time but returned and lived together for several years until on January 17, 1938, when a quarrel over a cat brought on the alleged trouble and the coffee-pot throwing act. For the defendant, Earle Houghtaling appeared.

At the present time Mrs. Cosman lives in Walden with her seven year old child while the father and the 17 year old daughter, Doris, live in the home at Maybrook which is being bought under contract. Mr. Cosman works for the New York, New Haven & Hartford Railroad as a car inspector and earns \$37 a week. Plaintiff asks \$150 counsel fees and \$20 a week alimony pending trial of the separation action if both children return to live with her. If only one comes with her then she asks \$15 a week.

The defendant denies any cruel treatment and alleges by affidavit that the trouble arose over Mrs. Cosman's friendly relations with one Charles Russell. Mr. Houghtaling told the court that Russell was seen almost daily at the Cosman home after Mr. Cosman went to work and that Mrs. Cosman would follow the truck of Russell down the road for meetings in saloons and other places.

"This defendant objects to her staying out until 3 and 4 o'clock mornings and coming home intoxicated. Why she would come in and leave her shoes on the porch in order to sneak in and then she would not sleep in their room," said counsel. He also alleged that Mrs. Cosman, who had worked in a restaurant as a waitress, was also friendly with a Mr. Finch. In December, he said, she took the family car and did \$110 damages which Mr. Cosman has to pay. Her actions over the past three years, counsel said, was responsible for Mr. Cosman's being ill and highly nervous.

So far as wages were concerned he told the court Mrs. Cosman would cash the pay check and give her husband about \$50 a week and if he wanted more he had to apply to her for it. At present Mr. Cosman owes \$3,500. In this debt item is a payment of \$2,800 due on the house and \$110 for the damage to the car done in December by Mrs. Cosman.

Various affidavits were produced, one by the daughter Doris, in which she told of her mother meeting Russell and going about in the family car to meet him when her husband was at work. In answer Mr. Ewig said the affidavit from the daughter was because of a difference between her and her mother. He told the court the girl had stated her intention to marry in September against the wishes of her mother and because of this objection she the daughter was hostile and made the affidavit. She remained with her father in Maybrook as she might meet the young man to whom her mother objected.

This was denied by Mr. Houghtaling who said the girl was not to marry in September but was taking a business course and wanted to get a job as stenographer.

## Local Death Record

The Rosary Society of St. Mary's Church will meet tonight at 8:30 o'clock at the home of Mrs. Frank Egan, 60 East Chester street, to recite the Rosary for their late sister, Mrs. Estella McGinnis Fitzgerald, and the society will also attend in a body the Mass in St. Mary's Church on Saturday morning at 9:30 o'clock.

Kramville, Feb. 4.—A number from this place attended the funeral services of Mrs. Grace Merrihew Dewey at 2 o'clock Thursday at the Tillson Reformed Church. Mrs. Dewey was the only daughter of Mr. and Mrs. Isaac Merrihew who is survived by her husband, four children and a brother, Arthur Merrihew, also of Tillson.

Ida B. Van Gaasbeek, of 112 Henry street, died in this city yesterday. A native of Kingston, daughter of the late Peter and Martha Burger Van Gaasbeek, she had resided in this city for entire life. Miss Van Gaasbeek was a very active worker in the Clinton Avenue M. E. Church, assisting in many of the affairs conducted in the different organizations of the church. One sister, Mary D. Van Gaasbeek, of this city, survives, along with several nephews and nieces. The funeral will be held from the home Saturday afternoon at 2 o'clock, with burial in Wiltwyck Cemetery.

West Shokan, Feb. 4.—There was a respectful attendance Wednesday afternoon at the funeral of Arndt Anderson, held at the Tongore Church. Mr. Anderson, a well known Acorn Hill summer boarding house proprietor, died at his home in Brooklyn, 1013 83rd street, January 20. Masonic ritualistic services were conducted at Mr. Anderson's home Tuesday evening. Interment was in Tongore Cemetery, where the remains were placed in the vault. The Andersons established their property at Acorn Hill some years ago and made very extensive improvements.

The funeral of Mrs. Ralph F. Dewey, who died early Monday morning, was held at the Tillson Reformed Church, Thursday at 2 o'clock and was one of the largest attended funerals ever held in Tillson. The Rev. John B. Steketee and the Rev. I. P. Emerick conducted the services. Two hymns were sung by quartet composed of Mrs. Chauncey Rowe, Mrs. James Gallagher, Mrs. Albert Myers and Mrs. Charles Hasbrouck.

Mrs. Dewey had played for more than 20 years. The Ladies' Aid Society of the church attended the services in a body, also the entire staff of the Prudential Insurance Co. of Kingston, headed by Supt. Rose, Mrs. Dewey having been associated with this company for many years. During the time the body reposed in the family home an unusually large number of floral offerings were sent to the home and hundreds of people called to pay their respects and offer their sympathy to the bereaved family. The Rev. Emerick accompanied the large funeral to Rosendale Plains cemetery and conducted the committal services. Bearers were Lloyd Keator, Chauncey Rowe, Frank Van Deusen, James Gallagher, Herman Osmer and George Charles.

SPECIAL BUS FOR THOSE  
GOING TO CARD PARTY.

For the benefit of people from this section who wish to attend the annual card party and reception to be held at the Pennsylvania Hotel, New York city, special buses will leave the terminal at Broadway and Pine Grove avenue at 9:30 a. m. Saturday. However, tickets will be honored on any of the regular buses of the Adirondack Trailways. Return trips may be made either Saturday or Sunday.

The card party is an annual event which is given for the benefit of the Catholic Churches at Rosendale, High Falls and Whiteport. There are special bus rates for all persons holding tickets to the card party.

GRANDMOTHER, 87, HELD  
ON MURDER CHARGE

Freehold, N. J., Feb. 4 (AP)—Blond Ethel Rouds, wed at 11 and a grandmother now at 37, was charged today after all-night questioning concerning the shooting of a 40-year-old handyman who died in front of the deserted bar in her roadside tavern.

Arraigned before Justice of the Peace Fred Quinn, she declared she was innocent and was held without bail for grand jury action.

"He grabbed the gun but I beat him to it," she told the court, and "it went off in my hand."

Her husband, Frank, said he married her when he was 23 and she "about 11."

FAIR STREET BARTERS  
AGAINST TRINITY TONIGHT

A postponed game of the Church Baseball League will be played between Fair Street Reformed and Trinity M. E. at Trinity court tonight, starting at 7:30 o'clock. All players are requested to be on time.

Disorderly Conduct  
Russell W. Colgate, 20, of Boiceville, was committed to the county jail Thursday for five days, in default of a fine of \$5, following arraignment before Justice Lester S. Davis on a charge of disorderly conduct. He was arrested by Trooper Duane and Deputy Sheriff DeWitt.

Back to Jail  
Philadelphia, Feb. 4 (AP)—J. Richard "Dixie" Davis, reputed heir to a New York lottery racket, was sent back to his jail cell after a brief court appearance today—the reduction of his \$240,000 bail still an unsettled question.

## Rev. Geo. Berens To Be Installed

The installation of the Rev. George Berens as the pastor of the Port Ewen and the Esopus (Clister Park) Reformed Churches will occur Friday evening, February 18, at 7:30 o'clock, in the Port Ewen Church. In the absence of the president of Classes, the Rev. Irving H. Decker, the vice-president, the Rev. Harold J. Hoffman, will preside and read the form of installation. The sermon will be preached by the Rev. Arthur E. Oudemool, a classmate in the seminary. The charge to the pastor will be given by the Rev. Edgar T. DeGraft, of the Garfield Presbyterian Church of Stephentown, and the charge to the congregation will be delivered by the Rev. W. P. Stowe of this city. The Rev. Mr. Berens expects to begin his ministry in these two fields on February 6.

The Presbyterian weekly of recent date is authority for the news item that the Rev. Goodrich Gates has taken the supply pastorate of the Madelia, O., Presbyterian Church, having joined the Presbytery of Cincinnati. He has also been appointed director of religious education by the Cincinnati Federation of Churches.

BOOKS APPRECIATED BY  
RECREATION DEPARTMENT

The city recreation department has just received a large number of books and magazines that had been collected by the Federation of Women's Clubs of the city. The federation recently completed the work of soliciting books and magazines and a large number have been forwarded to the Warwick Training School for Boys in addition to the large number turned over to the recreation department.

Sidney Lutzin, director of recreation, said that the department appreciated the gift from the federation, and that the books would be placed in the new up-town community center in the Salvation Army building on North Front street and also in the Redoubt House on Mill street, when the two centers were ready for occupancy.

## Variety of Names Given

to Old Canadian Coaches

The days of leisurely journeys by horse-drawn stage coach are a thing of the past, but, no doubt, our forefathers enjoyed traveling in stage coaches with their picturesque names. observes a writer in the Montreal Herald.

Some characteristic names were "Reliance," "The Good Intent," "Accommodation," "Clock-Work," and "The Regulator." These names seem to hold out a guarantee of regularity and punctuality.

Two coaches which used to run were named respectively Spitfire and Vixen. Perhaps the appropriateness of these names is apparent when it is recorded that these two ran in opposition to one another.

Defiance was a common name in use during the stage coach period, and was withal something more than a mere name; it really amounted to a challenge, defying, as it were, all competitors on the road.

Sporting names were also used to a large extent. Such were "Tally-ho," "Tantivy," "Highwayer," "Kie-over," "High-mettled Racer" and "Flying Chidlers." The latter apparently took its name from a famous racehorse of the period.

A well-known and favorite stage coach was named "Peveril of the Peak." Its great rival was named "The Royal Bruce."

Another class of names included such as "Lightning," "Quicksilver," "Telegraph," "Express," and "Swiftsure."

Some of the stage coaches were named after the famous people of the period, and here we have "Lord Nelson," "Cornwallis," "Rodney," "The Prince of Wales," and "The Duke of Wellington." Two rather significant names were "Give and Take," and "Live and Let Live."

## 58 Cases on Court

### Civil Calendar

Fifty-eight civil cases make up the calendar for the February trial term of county court which will be convened Monday afternoon next at 2 o'clock by County Judge Frederick G. Traver. The civil calendar will be called Monday but the criminal trial work will take up the first week of the term. Civil matters will be taken up following the disposition of criminal matters.

A criminal calendar containing 74 cases has been prepared by District Attorney Clon B. Murray and this calendar will be called Monday afternoon and the criminal cases will be taken for disposition as nearly as possible in the order in which they appear on the calendar.

# Kingston High Plays Newburgh; Sizzling Boxing Card Tonight

## Maroon Quintet and Hill City Varsity in DUSO 2nd Lap Starter

### TIED FOR FIRST

Locals Need Victory to Stay on Top—Kinsmen Tied with Liberty Quintet for League Lead.

The second lap of the DUSO league starts tonight with an important state of games. As far as this locality is concerned the main interest lies in the game at the Newburgh gym where the highly scored quintets of Kingston and Newburgh open fire. In the first game of the season the locals thumped the Goldbacks by 28 to 26.

Always a dangerous outfit, the Newburgh team has been the most teams in recent years. Based on their attack mostly on Ed Jones, All-DUSO end of football, Newburgh employs one of the most difficult systems to pick up. Since the opening of the season, Newburgh has been regarded for its supreme checking. They lost to the locals 28-26 and defeated Liberty 24 to 23 indicating that they can really apply the skills when necessary.

Clamping down on Poughkeepsie last Tuesday the Kinsmen registered their fourth straight win since the breaking of their extended streak of 28 games and judging from their exhibition in the fracas it appears as though they may keep right on heading for another brilliant streak.

While Kingston and Newburgh met it out down in the Hill City tonight Liberty takes on Monticello.

**DUSO Standing**

Won	Lost	Pct.
Kingston	5	.833
Liberty	5	.833
Newburgh	4	.800
Monticello	4	.800
Ellenville	2	.400
Port Jervis	0	.000

The lineups for Kingston-Newburgh: Captain Bock, Leary, Schuch, Hens, Malmes, Arguelewicz, D'Autola, Silverberg, Gruff.

New Haven, Conn.—George Finch, 177, New Haven, scored technical knockout over Babe Brattie, 181, Sherbrooke, Que., (4).

## Rainbows Lose 1st to Kinneys, Sparkling Program of Contests

### Jolson Sues for His Percentage

Los Angeles, Feb. 4 (AP)—Singer Al Jolson and Night Manager Eddie Mead sparred verbally today over ring earnings of Henry Armstrong, world featherweight champion.

Jolson claimed he put up \$5,000 for the purchase of Armstrong's contract 18 months ago, and expected to share whatever purses Huston Hank collected.

But, he added, Mead "has paid me back, in nickels and dimes, a about \$4,000. I have not received any percentage of Henry Armstrong's earnings."

Mead countered that Jolson merely "loaned" him \$5,000, that he had paid \$4,000 back, and that he was the sole owner of Armstrong.

Jolson placed the matter in the hands of an attorney.

### Mix-up Ahead for 160-Pound Title

New York, Feb. 4 (AP)—The middleweight situation, already complicated, has a chance to get completely out of control tonight when Glen Lee, a tough little pug from the mid-west, tackles Fred Apostoli, the "uncrowned champion," in a 12-rounder at the Garden.

It's reported, though not confirmed, that Apostoli, who recently bashed out the champion, Freddie Steele, in an over-weight affair, has refused to lay his share of the "title" on the line. That is, the San Francisco thumper, the "uncrowned champion," whatever happens tonight.

Though it doesn't make much sense, Apostoli's stand is fully as logical as anything connected with the middleweights lately. If Lee wins, as he stands a good chance of doing, then it's up to him to think of another title. He could call himself assistant champion to Steele, for instance, and he and Apostoli could take turns challenging the champion.

## Headlock on Hubby

As predicted yesterday, all the games in the Open Division of the City Basketball League turned out to be thrilling contests at the Municipal Auditorium.

In the tilt listed as the feature of the evening, the Kinneys handed the Rainbows their first defeat, 29-25, as Schooboy Bush, Johnny Zeeh and Manager Hymle Aduchefsky found the hoop for 21 points.

Playing his first full game of the season, Manager Aduchefsky put on a real show for the customers, showing them he can carry out the plays as well as calling them from the bench. Every one of his shots was of the spectacular variety.

Purvis and Gelsler turned in the bulk of the Rainbows points, scoring nine and eight respectively.

Grundenwalds, with Bruce leading the point makers, edged out the Pirates, 28-26, in the last few minutes, after the Buccaneers held the lead for the entire battle.

This was a heated encounter that brought on a bit of fist-fighting on the part of Cowboy Evers and Gilday of the Pirates. Pete "Man Mountain" Schine went out on personals, the fifth foul being called on him in the last minute of play.

Clarence "Sloat" Rowland, recently of Kingston High School Varsity, and Babe Coughlin, star for the Pirates with nine and eight points in the order named.

Starting the program, the Whirlwinds defeated the Window Cleaners, 26-22, as Port and De-Grant with 10 and nine points showed the way in collecting baskets. DeWitt with eight featured for the Window Cleaners.

There will be a meeting of the League managers tonight in the city hall at 7:30 o'clock. It is important that all managers attend.

### Rosendale and Ridgers in Two Court Contests

The Rosendale Firemen, who travel to Stone Ridge tonight to play the representatives of that village play hosts to the Grangers in Rosendale on Saturday night. The boys from the Ridge hold one win over the smoke eaters but Manager Quinn is confident that his men will turn the tables on both nights. Quinn will choose his lineup from Kelder, H. Rask, DeBrooky, P. Rask, Auchmoody, D. Rack and Regan. Stone Ridge will have F. Neff, East, Fischer, C. Neff, Doyle and Pine. A record crowd is expected at the games due to the intensive rivalry between the teams. The preliminary games at both courts will be played by the Rosendale Juniors and the Stone Ridge Juniors. Dancing will follow the contests at both Stone Ridge and Rosendale.

**Runyan Among Golf Favorites**

Sacramento, Calif., Feb. 4 (AP)—Most of the country's leading professionals were listed among the hundreds or more golf masters who tramped the rain-soaked municipal links today in the first round of the 72-hole \$3,900 Sacramento Open.

Among hot favorites is Paul Runyan of White Plains, N. Y.

### WRESTLING LAST NIGHT

(By The Associated Press) Providence, R. I.—Mike Rogoski, 197, Poland, pinned Patsy (Bull) Angelo, 200, Utica, N. Y., two straight falls.

Camden, N. J.—Ernie Dusek, 228, Omaha, Neb., threw Jack League, 218, San Antonio, Tex., 28-57.

Hartford, Conn.—Pat Riley, 212, Texas, defeated Al Getz, 215, Manchester, two of three falls.

## Chance for Penn To Gain the Lead

New York, Feb. 4 (AP)—Penn State, the big surprise of the Eastern Intercollegiate Basketball Conference, gets a fine opportunity to assume a commanding lead in the conference race tonight and tomorrow night, in game with Temple and Georgetown.

The Lions lead the title race with three victories and no defeats. Georgetown and the highly touted Temple quintet are tied with Pittsburgh for second with two victories in three games each. If State wins both games, it will be some time before any club will be able to challenge the Lions.

New York university, opening a southern trip, whipped Maryland, last night, 42 to 27 and will meet Richmond tonight. The Violets make no secret of great expectations for the trip.

Fordham, which downed Georgetown in New York this week, meets Villanova, one of the sector's best clubs, in the other half of the Philadelphia double.

Duke invades Brooklyn for a tilt with powerful St. John's in one of tonight's leading intercollegiate games. Other outstanding eastern games include George Washington and Loyola of Chicago, Manhattan and Niagara, and Marquette and Canisius. Washington downed Wayne of Detroit, last night, 38 to 25, in the first game of its western invasion.

### Patty Berg Bids For Third Victory

Coral Gables, Fla., Feb. 4 (AP)—Patty Berg, Minneapolis' gift to feminine golf, bid for her third winter title today in her match with Mrs. Jane Cochran Jamieson of West Palm Beach, Fla., in the 36-hole final of the Miami Biltmore women's tournament.

Winner of the recent Augusta and Punta Gorda tournaments, the freckled Patty was seeking her third victory in the Biltmore event, which she won in 1936 and 1937.

## SNOW SPORTS

RICHARD O. CRUVER

Great Piece of News Harry Wagner, one of the world's outstanding Class A skijumpers, will henceforth compete under the emblem of the Telemark Ski Club, of Rosendale!

Exactly what this will mean to Ulster county may be sketched best in this way: Harry Wagner is second only to the world's champion, Birger Ruud, Wagner's best record is 81 meters on the Olympic Hill at Garmisch-Partenkirchen, Germany. That jump measures 251 feet, or twice the distance jumped at the Rosendale Hill. In south Germany, where he hails from, Wagner competed against Birger Ruud, the flying Norwegian, and was beaten only by three feet. And the substance of this report is this, that Ulster county may in a very few seasons be the scene of a national championship tournament!

**Out of the Mail Pouch** This news, discovered by this column by poking through The Freeman's always-overstuffed mail sack, comes from Bernard B. Hansson, president of the Telemark S. C., who, in a letter so full of the club's aims and aspirations, in a message so animated that the writer's personality carries through with the same alert sparkle his eyes hold when he is talking with you, has this to say:

"I am glad to hear our tournament aroused a great deal of interest in your county. I hope this is only the beginning and that we in time to come will have bigger and better meets, with the best in the east coming to our jumping for a real test."

**Will Promote All Forms** "However, it is not only skiing or ski jumping that we plan to have. We will gradually promote every line in skiing as soon as time permits."

"In order to get people interested in the sport we will do our utmost to:

"Organize classes for beginners. That is, boys and girls, men and women who are eager to learn how to get acquainted with skiing in general; the different turns, how to get the control of the skis and,

"Promote downhill skiing and slalom."

"Get the boys interested in cross country races."

"Organize a junior club in the county, to arrange junior ski tournaments which will include downhill, slalom, cross country races and jumping."

**Time and Patience** This is no precipitate plan, however, for Mr. Hansson explains that he and his aides wish to get everybody who desires to learn more about skiing to take an active part, and help the Telemark club to become one of the largest and best known in America. "By starting a junior club with a small yearly fee," Mr. Hansson says, "it will get better acquainted with it, and finally realize what a healthful and invigorating sport skiing is."

**Changes in Hill** "But all this will take time. So far we have had our hands full in constructing our jumping hill and getting over the expenses involved in it. We have plenty of work ahead to do on the hill in making the landing slope steeper, to remove two feet of dirt on the top of the hill (before the take-off), to build one more judges stand, grand stands, etc. . . . If we could get new members in Ulster county to join, members who are willing to give us a hand during week-ends when the winter season is over, I feel we could get the work done in record time. . . . We have a site which in time could be made into one of the biggest ski jumping hills in America. But it would take money and a lot of work to do this, and with a big hill, there's no reason why we in time could not apply and receive sanction to hold the National Ski Tournament right in Ulster county, with the cream of this country's and other countries' best skiers competing."

With the great help from your paper and other local papers it should not take long to get everybody interested."

Speaking further about Mr. Wagner, Mr. Hansson informs us: "He has competed in meets in California where he jumped over 250 feet. I am anxious to see him at his first test, which, if we get snow, will be this Sunday at Salsbury Mills (near Newburgh) at the Noremson Hill."

**Daily Invitations** Concerning other jumpers in the club, "I receive daily invitations from clubs to send Telemark Ski Club boys to their meets. Interstate Ski Club at Buffalo wants two or more men on February 12 and 13. The Norfolk Outing Club, Norfolk, Conn., writes for two Class A and two Class B men on February 13. Bear Mountain Sports Association wants five or six on February 12, and the Brattleboro Outing Club is asking for our men to enter the national championship jumping and cross country on February 20. Other invitations received are from Noremson Ski Club February 6, and Noremson Ski Club on the same day at White Plains."

"All of which will keep our boys on the go from now on. Of course, if any meet is canceled due to lack of snow, there is a possibility that some of the boys may come to Rosendale to teach skiing to those interested."

**Trophy in New York Exhibit** Mr. Hansson says that the silver trophy donated by the Rosendale Township Association to the Telemark Club will be included in an exhibit of the Norwegian Chamber of Commerce along with other outstanding items of winter sports at the International Tel. & Tel. building, Broad and Beaver streets, New York City.

In conclusion, "In the meantime we are making great plans for our final ski tournament on March 6, where practically the best skiers in the east will compete. Then they will come up with a season of good training to a final roundup meet at Rosendale. Let's hope we get snow for the 6th."

Let's hope, did you say, Mr. Hansson? Well, hope we will, but this column has in mind 4,000 fans at least who are praying. Praying, Mr. Hansson, for you and all your Telemarkers!

### Tough Going for British Netmen To Reach Davis Challenge Round

New York, Feb. 4 (AP)—Great Britain's tennis forces, two years ago the all conquering holders of the Davis Cup, face a stern fight this year if they are to get into the challenge round against the United States.

Germany's strong team, the United States' most efficient opponents last year, and France and Czechoslovakia, the latter two nations boasting young and eager players, are all in the European zone pairings with the British team.

The German team, which apparently again will be headed by Baron Gottfried von Cramm and Henner Henkel, drew a bye for the first round in the schedules drawn yesterday at Washington by Secretary of State Hull. The Germans will meet Norway in their first match, while Great Britain must beat Rumania to get into the second round.

The British, who may be minus the services of Bunny Austin, will then meet the winner of the Czechoslovakia-Yugo Slavia first round match, in all probability the Czech team.

France, meeting the Netherlands in the first round and Monaco in the second, should get into the European zone semi-finals without much difficulty. Germany, facing Norway and the victor of the Hungary-New Zealand matches, is another probability, along with Austria, match-off against India and the victor of the Greek-Belgian matches.

The complete draw:

**American Zone** Japan vs. Canada; Australia vs. Mexico. Winner of these matches will meet for the American zone title and the right to

**European Zone** Second round (first round byes): Germany vs. Norway; Hungary vs. New Zealand; Monaco vs. winner of France-Netherlands series.

First round: France vs. Netherlands; Poland vs. Denmark; Ireland vs. Italy; Czechoslovakia vs. Yugoslavia; Great Britain vs. Rumania.

Second round (first round byes): Sweden vs. Switzerland; Greece vs. Belgium; Austria vs. India.

The winner of the matches between the European zone victors will meet the United States team in the challenge round.

## Best Scrappers from New York and Upstate To Be at Auditorium

EXPECT CROWD

Bradley Lewis, Severino, Riviera, Forezzi, Emersons, Caprotti and Steele in Duels Promising Action.

There should be plenty of heavy bombing at the municipal auditorium tonight when the "redemption" boxing card goes on, featuring the cream of the talent in the Adirondack and Metropolitan divisions of the A. A. U.

To overcome the bad taste left by last week's bill of scraps, the Kingston club sifted through all the scrappers, picking those who have put up great battles previously, for tonight's program, and indications are that it will be one of the best ever put on here.

Bradley Lewis heads the list. The international middleweight champ is matched with Guy Coremo, Idaho CCC Camp star, who last week pounded out a win over Frankie Baumgartner, one of the toughest boys upstate. Supporting this five round main go is a list of matches that has caused a lot of favorable comment among the fans of Ulster, who are expected to turn out in full for the battles, packing the auditorium for a record attendance.

Charley Forezzi will tangle with Richard Cremer, international lightweight titleholder, and faces the threat of a knockout, as predicted by George Galford, Golden Gloves trainer from New York. The Albany Buzzsaw, who beat Sammy Rizzo last week, saving the night with his spectacular exhibition, is not worried about Cremer.

Another scrap from which the fans expect a lot is the Mado Severino-Hijo vs. Riviera, paining Severino, outpointed the rugged little Puerto Rican in a previous match, and counts on repeating tonight. Riviera says it will be a different story. Hijo recently outboxed Frankie Parsha before he turned pro.

Pete Caprotti, Kingston's good looking lightweight, just out of the three round class, gets his big chance against Buddy Emerson, Diamond Belt champion from St. Remy.

"Caprotti is a good fighter, and a nice kid," said Emerson, talking about the match, "but once I get into that ring with a man, he fights or else. If I can stop Caprotti, I'm going to do it."

Pete, winding up his training grind with a light exercise at the Y. M. C. A., Thursday, said he felt in trim and ready to put up five fast rounds of fighting.

Frankie Emerson, Buddy's brother, is on the "redemption" card too, and his duel with Eddie Steele is expected to be one of the highlights of the night. He holds one decision over the Poughkeepsie Wildman, scored four years ago when they were featherweights.

"Emerson is one of the best punchers in the 125 pound class," Ben M. Becker of the A. A. U. recently said after seeing Frankie win his first scrap at Hudson where he opened his comeback after more than two years of inactivity.

Tonight's prelims will offer a grand affair between Jess Caprotti and Pete Robinson, two Kingstonians, and what promises to be a real slugfest between Monk Armstrong, 115 pounder, and Joe Dimeo, Albany belter.

Starting time is 9 o'clock.

## Clearwater Gets Heavy Court Fine

Harry Clearwater of Greenhill avenue was arrested last night by the police following a collision between his car and that driven by John Pople of 21 Elizabeth street, a motor vehicle inspector, on Greenhill avenue. Clearwater was charged with operating a car while intoxicated. This morning in police court on his plea of guilty he was fined \$75 by Judge Matthew V. Cahill.

Ethel Ackerman of New York city, arrested on a charge of disorderly conduct had her hearing adjourned to February 16, to which date the hearing of Frank Borsey of Louisville had been adjourned. She was riding in Borsey's car at the time he was arrested on a charge of operating a car while intoxicated. He is also charged with resisting arrest.

## Three Objections To Awards

(Continued from Page One)

property and he held that there could be no action in tort.

To two other awards Mr. Walton objected. He objected to the Thomas J. McGrath award of \$375 for damages and \$800 for the right in perpetuity. This was inadequate he said. A claim for \$10,000 had been filed. Senator Walton asked that the McGrath award and the Charles W. Frederici award be sent back to the commission for retrial. The McGrath land was traversed something over 2,000 feet by the creek and the property was in the village of Phoenicia and on the premises was a swimming pool. Based upon the awards made in other cases Senator Walton said the award of \$800 was very unfair. He told the court that a value of from \$1 to \$2 was nearer in accord with other awards.

In the Frederici case the award was \$35 for damages and \$500 for the right in perpetuity. This award he said was far too small. Justice Bergen took under advisement the objection to the Simpson award by the city as having been made on an erroneous theory and also the objection of Mr. Walton to the two other awards as being insufficient. Counsel consented that the other awards to which no objection was made should be confirmed and the awards paid.

### Term "Dunned" Known as Far Back as Henry VII

It is unfortunate but by no means uncommon to be "dunned" for taxes and other debts. Irritated citizens, however, can console themselves by reflecting that the word "dun" originated as far back as the reign of Henry VII. At that time, observes a writer in the Montreal Herald, there was a bailiff of the city of London who rejoiced in the name of Joe Dunn. So successful was Joe Dunn in getting money out of delinquent debtors that the merchants of that day used to say: "I shall have to Dun him" when they resolved as a last resource to take proceedings to recover their debt. Hence the name of this pioneer professional collector of debts crept gradually into the language, until it was adopted to signify urgent and persistent demands for payments.

Slang is frequently more expressive than orthodox English. The word "skedaddle" is a case in point.

In an old Bible printed in Ireland about the Cromwellian period appeared: "For it is written I will smite the shepherd, and the sheep of the flock shall be scattered." The word evidently impressed itself on the minds of the descendants of the Cromwellian troops who had settled in Ireland, and so reached the New World, and eventually became enshrined in the language.

## PLANE COMMANDERS DIE IN CRASH IN PACIFIC

Lieut. Elmer Glenn Cooper, (left) commanding officer of the U. S. Navy plane, 11-P-3, and Lieut. Carleton Barmore Hutchins, (right) commander of the sister ship, 11-P-4, were among the 11 navy men lost when the planes collided in midair off the California coast within view of the maneuvering fleet. D. B. McKay (center) aviation chief machinist mate on the 11-P-4, was one of three survivors.

## Recommendations For Napanoch

Albany, Feb. 4 (Special).—Recommended that additional employees be provided to eliminate necessity of depending on inmate help in the engineering department, is contained in the latest report of examination of the Napanoch Institution for Male Defective Delinquents, submitted by Senior Inspector James McC. Shillinglaw, and approved by the State Correction Commission.

"The State Department of Public Works," asserts Mr. Shillinglaw's report, "after a survey at the institution, recommended an assistant engineer for night duty, one additional fireman, one electrician and one steamfitter. The superintendent stated that at times it is necessary to depend on inmate help, which seems to be an unwise practice."

Other recommendations embodied in the report were:

That the masonry work at the ends of the North and South cell halls be completed to conform to existing walls.

That the electric wiring in the North and South cell halls be replaced by modern wiring.

That a chlorinating system for the water supply be installed as recommended by the State Department of Health.

That electric generating machinery be installed for use in emergencies during periods of power failure.

That the wall be examined by competent engineers and such repairs made as deemed necessary to prevent further disintegration.

That a root cellar for the storage of vegetables be provided.

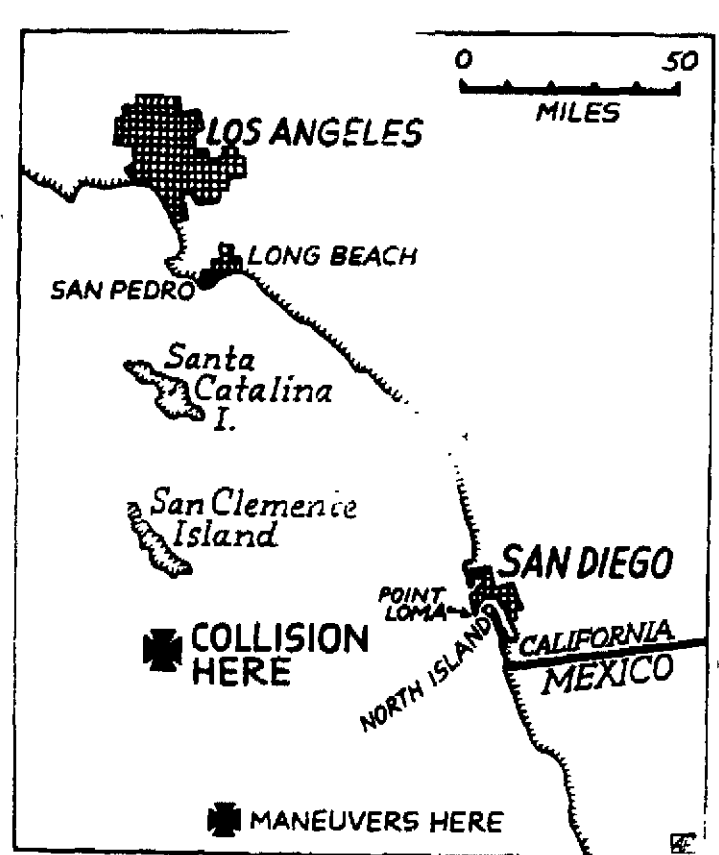

That a gun detecting device be installed at the main entrance.

That paint be substituted for the whitewash on the cell house walls.

That a central radio receiving set be installed.

Vinegar was first obtained by the natural souring of wines.

## WHERE COLLIDING NAVY PLANES PLUNGED

This map shows the area off the southern California coast where two U. S. Navy planes, the 11-P-4 and the 11-P-3, engaged in maneuvers with the fleet, collided during a night flight and plunged into the Pacific, killing 11 of the 14 crew members.
